SUPERYACHTS

SPIRIT  YACHTS  
THE ULTIMATE MODERN CLASSIC

## ABOUT SPIRIT YACHTS

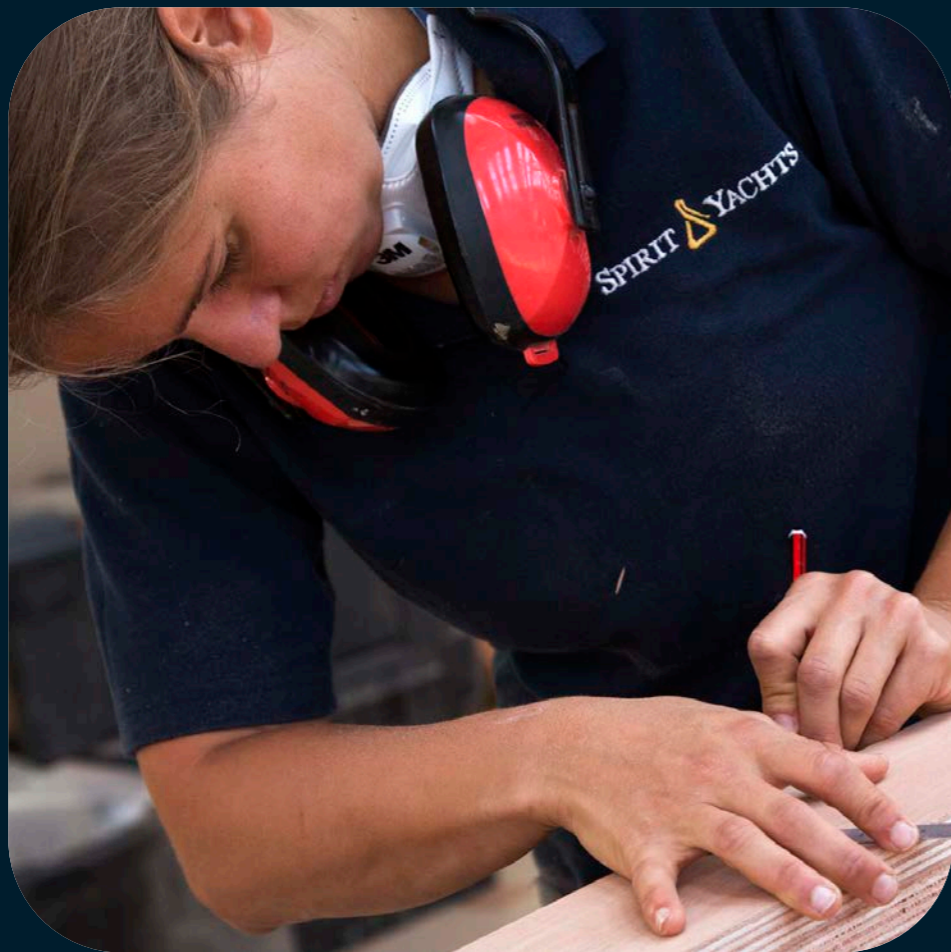

---

Spirit Yachts is the world leader in modern classic yacht design and build. Based on the east coast of the UK, Spirit Yachts has a portfolio of customised, wooden yachts ranging from day sailors to superyachts.

Established in 1993, Spirit Yachts was founded by Sean McMillan and Mick Newman, who set out to offer yacht owners a beautiful, sustainable alternative to fibreglass production boats. This goal remains at the core of the company's ethos today.

From humble beginnings in the Suffolk countryside, Spirit Yachts now operates from a large waterside facility with a highly skilled team of designers, naval architects, boat builders, cabinet makers, electricians, and engineers.

Built using the highest quality, sustainable timber and incorporating the latest technology, Spirit yachts are designed and commissioned to suit an owner's individual criteria. Every Spirit is unique.

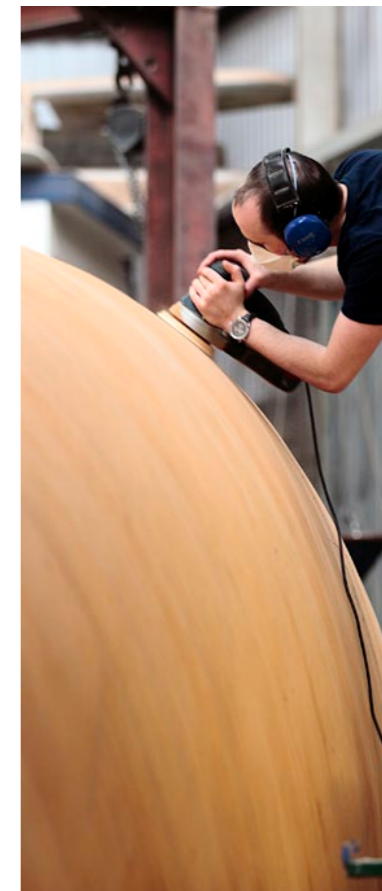

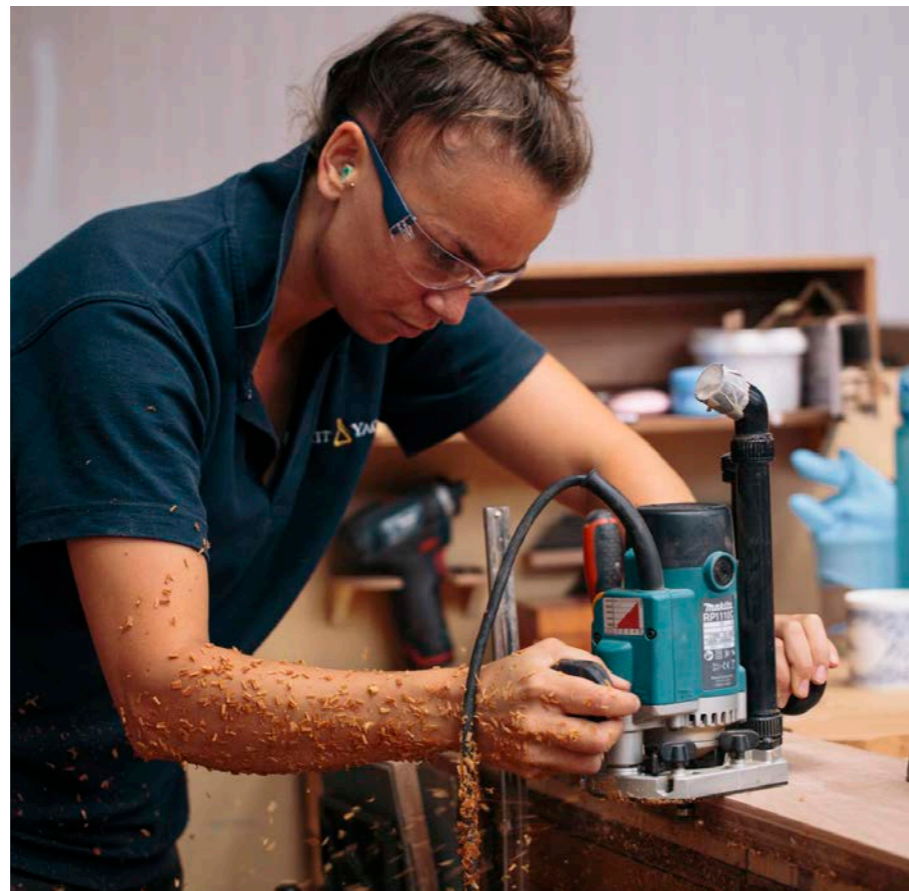

## SPIRIT CRAFTSMANSHIP

---

The creation of a Spirit yacht is a collaboration between in-house designers, naval architects, electricians, engineers and boatbuilders.

Spirit Yachts comprises a world-class team of craftsmen and women who are passionate about the highest standards of boat building.

Using sustainable timber sourced from responsibly managed forests, the Spirit artisans create your dream yacht. Every owner has the opportunity to experience the build and be a part of the evolution of their yacht.

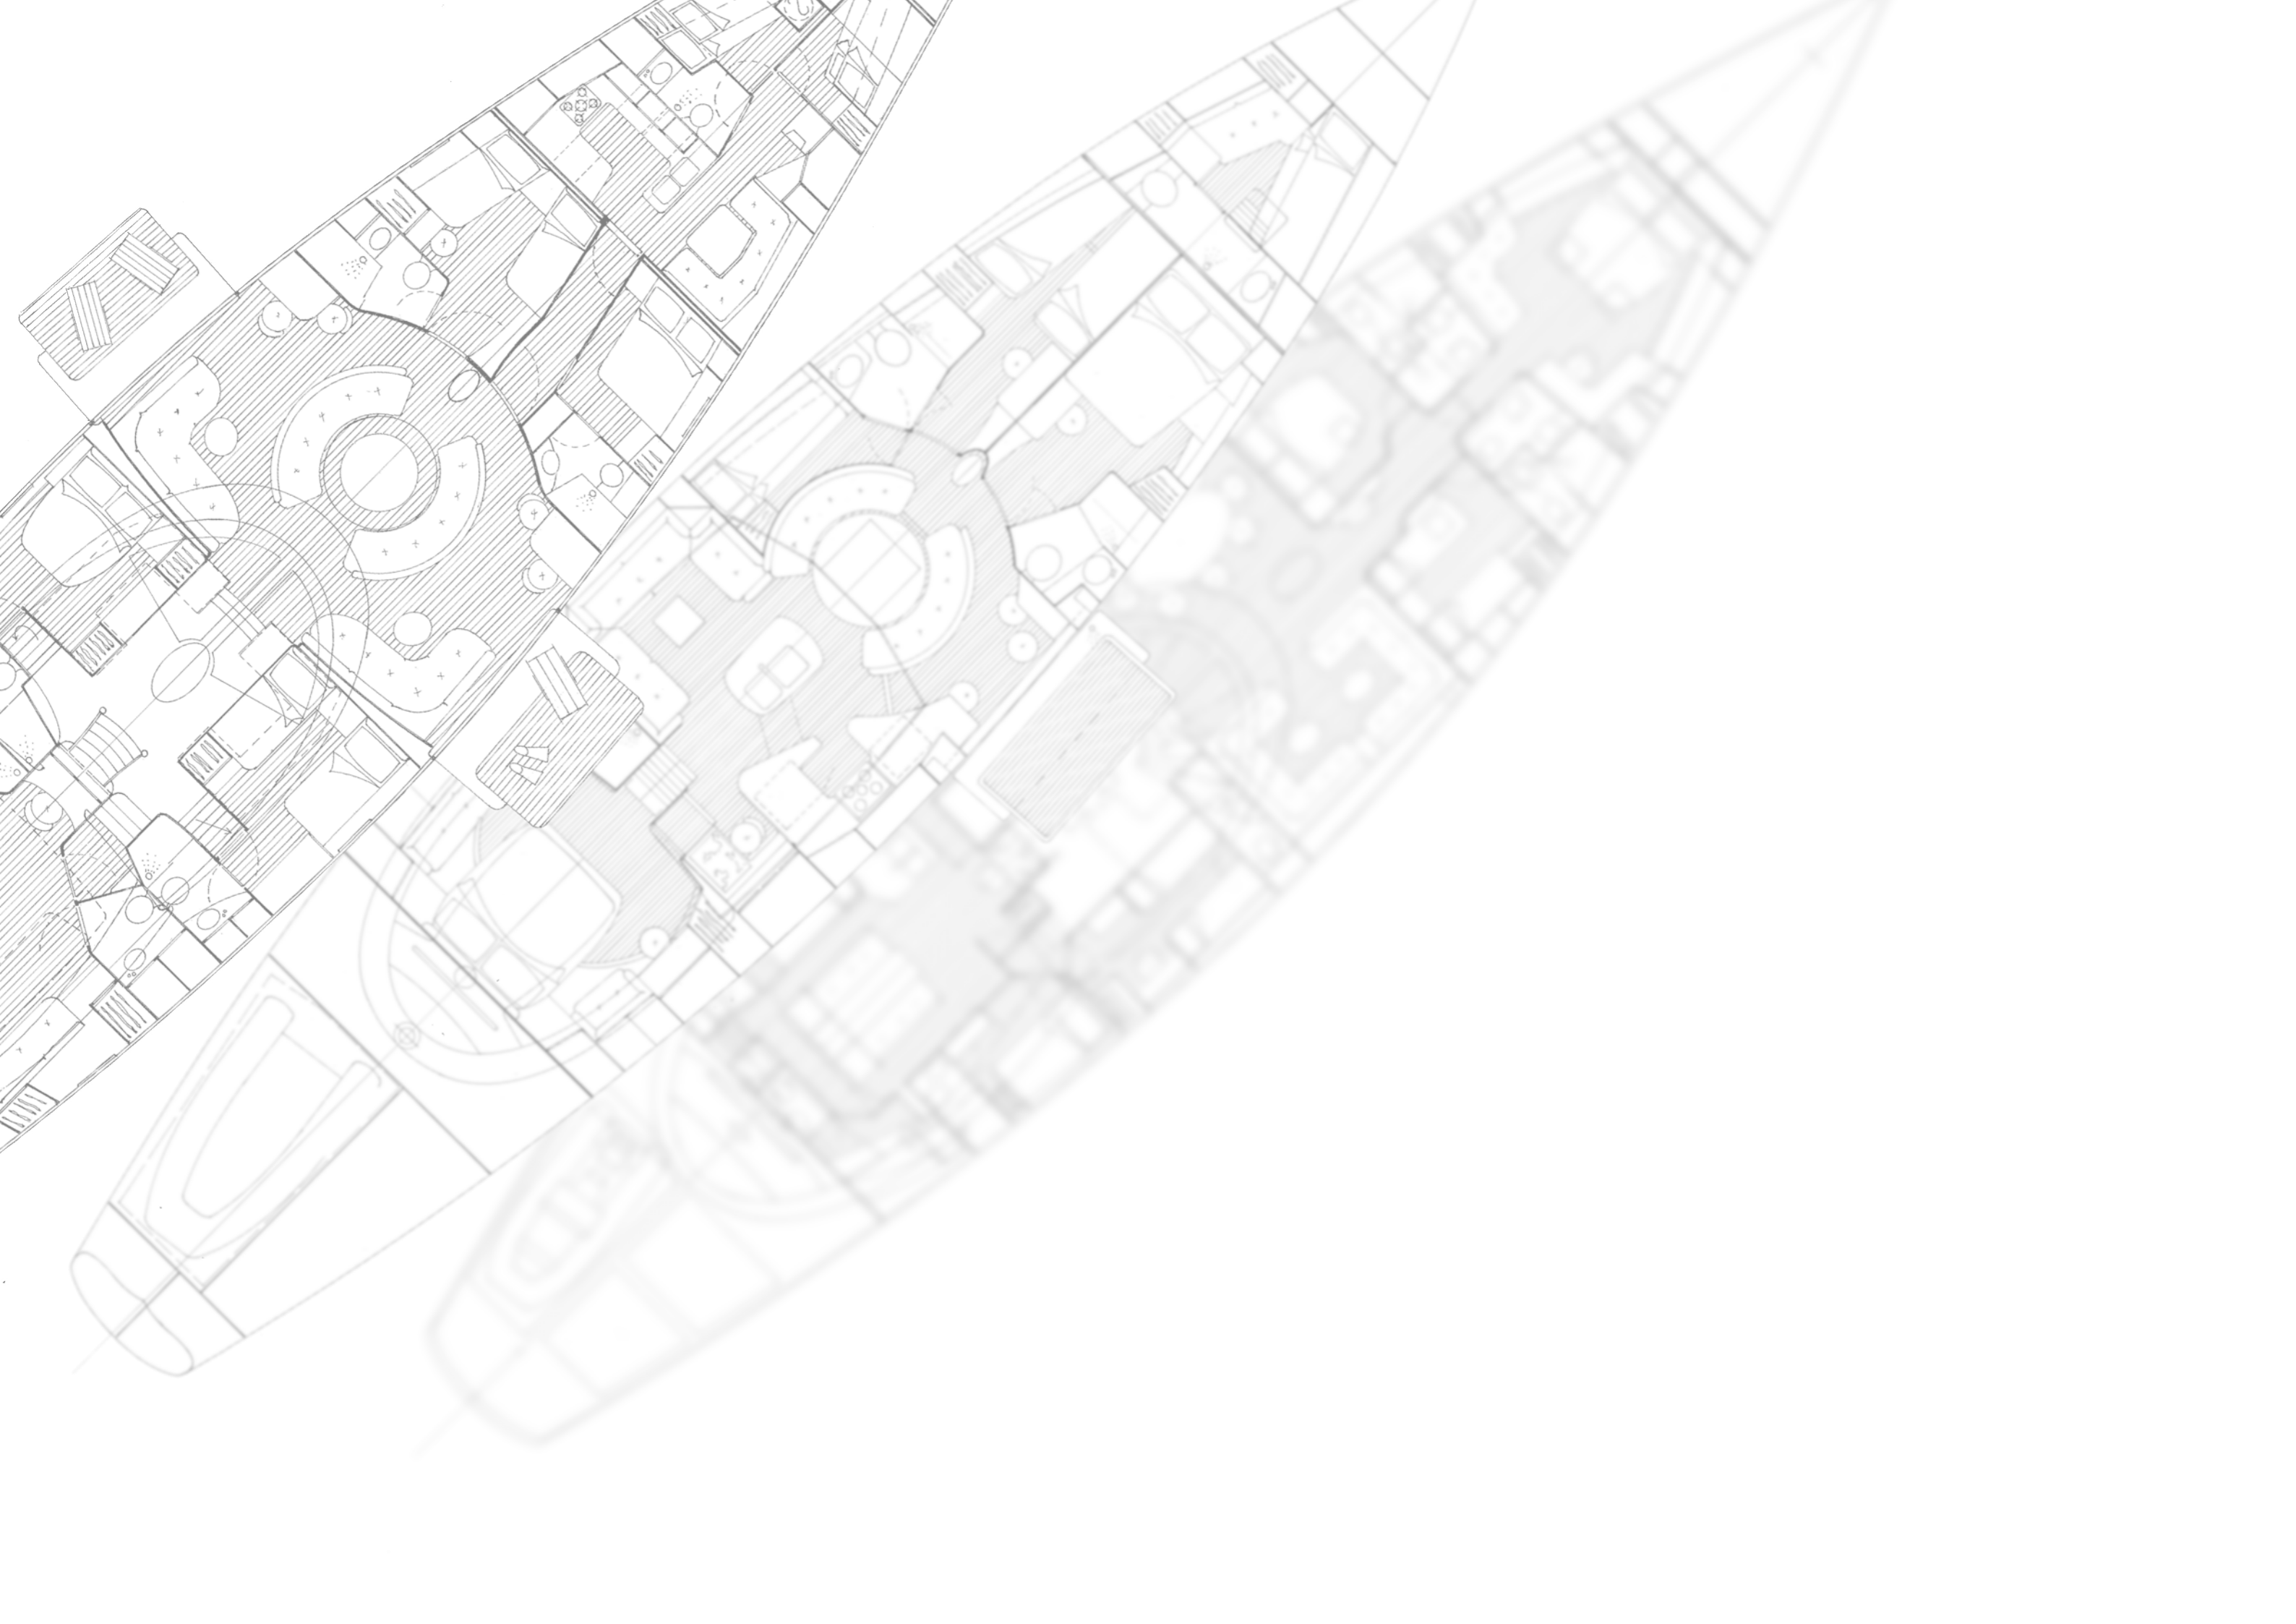

## SPIRIT DESIGN

---

Design is at the heart of Spirit Yachts. Spirit Design comprises a talented, award-winning team led by the company founder Sean McMillan, who instills the founding design values of beauty, elegance and sailing performance.

Every yacht is custom built to a specification determined by the client. A process as exciting as the build itself, designing your yacht with our team is an experience that allows you to explore new and creative ideas. With visualisation, our team can help produce your dream yacht, designing the deck layout, general arrangement, interior style, systems intergration, involving the client at every step.

Unlike many yacht builders, Spirit Yachts conducts the design and build process in-house at its waterside headquarters in Suffolk. With designers and builders in one location, communicating and working collaboratively, Spirit offers customers a seamless journey from initial design to the launch of the finished yacht.

## OUR PORTFOLIO

---

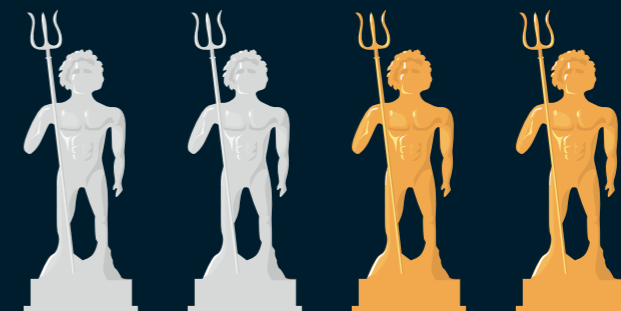

Over the 29 years of Spirit Yachts, an impressive portfolio of stunning superyachts have been built. Each with their own unique character, they demonstrate the skill and craftsmanship that go into each individual project.

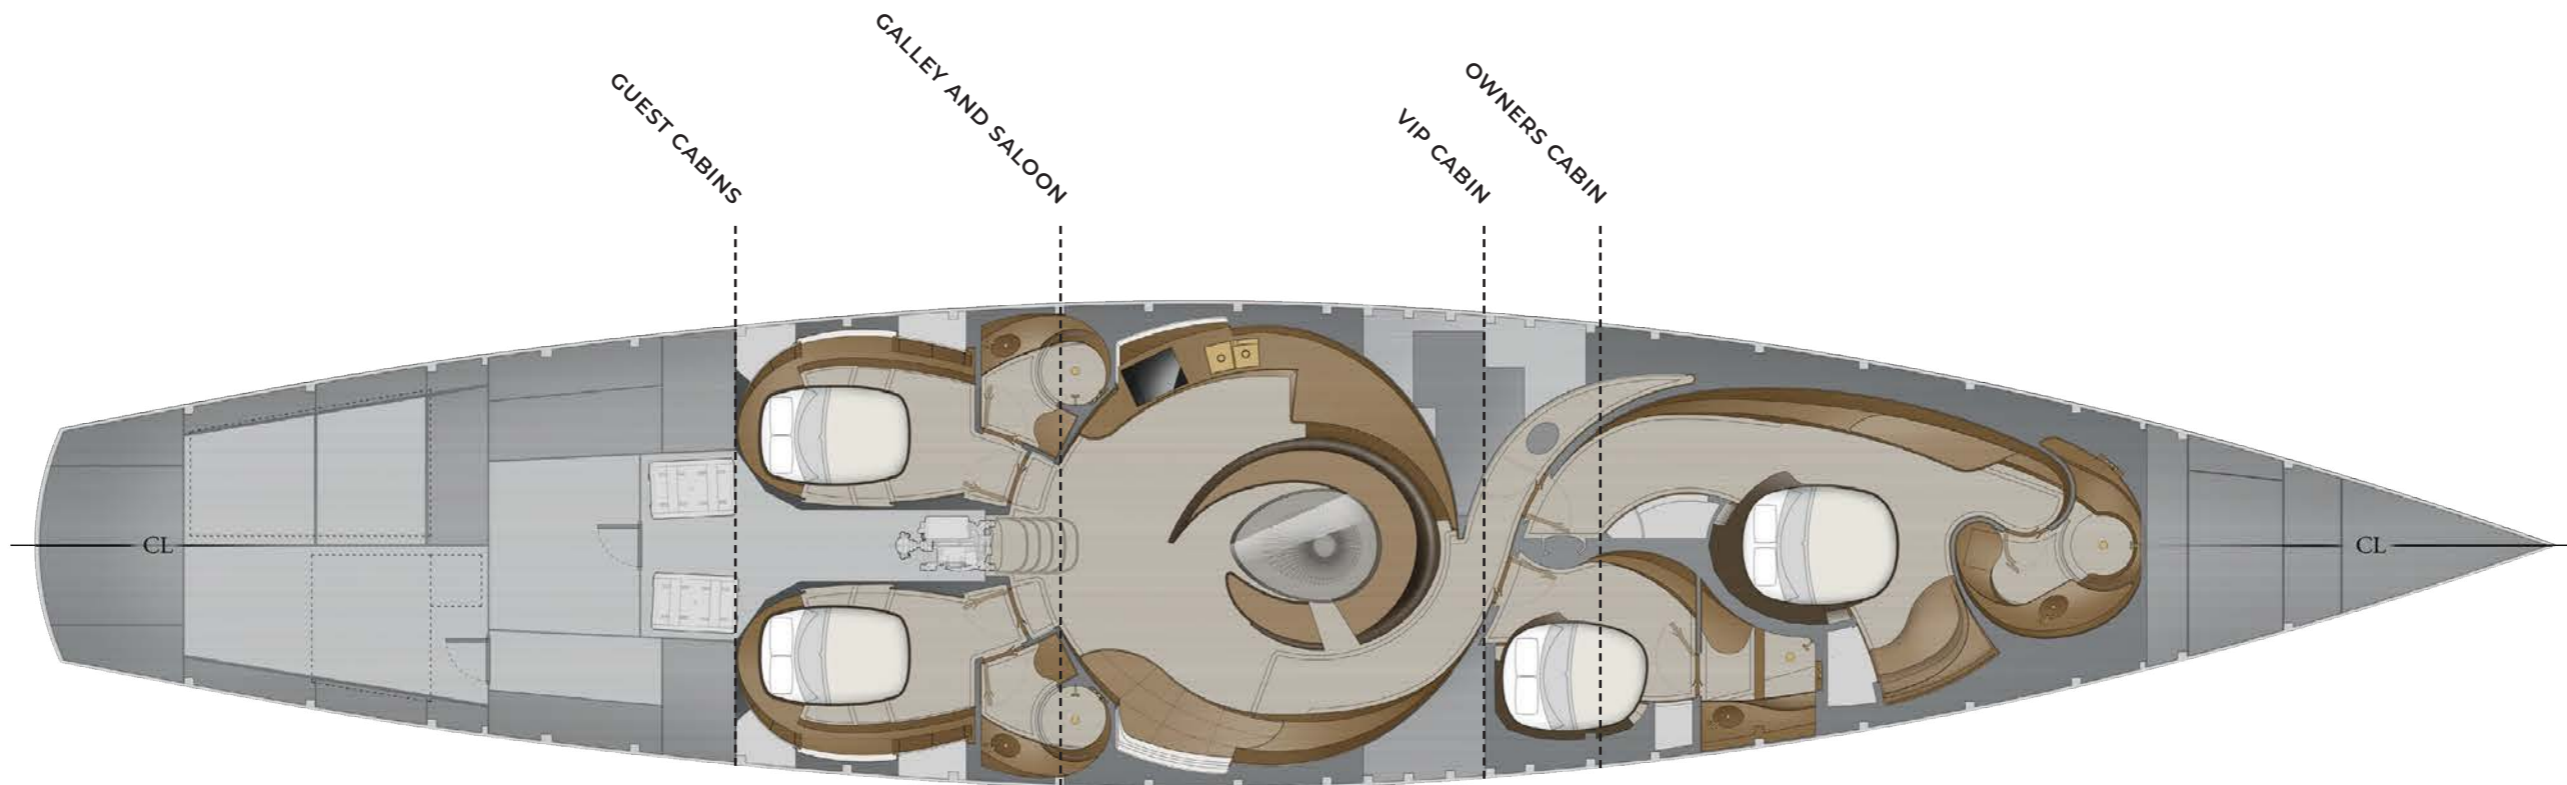

# GEIST

SPIRIT 111 - HYBRID ELECTRIC DRIVE  
Handcrafted in 2020

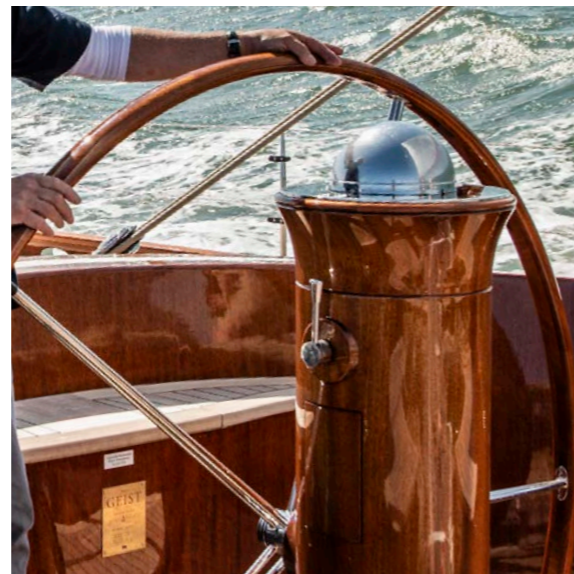

**BOAT International World Superyacht Awards 2021**  
Sailing Yacht of the Year WINNER  
Best Sailing Yacht WINNER

**BOAT Design and Innovation Awards 2021**  
Best Interior Design, Sailing Yachts WINNER  
Eco Award WINNER

SPiRiT 111  
GENERAL ARRANGEMENT PLAN

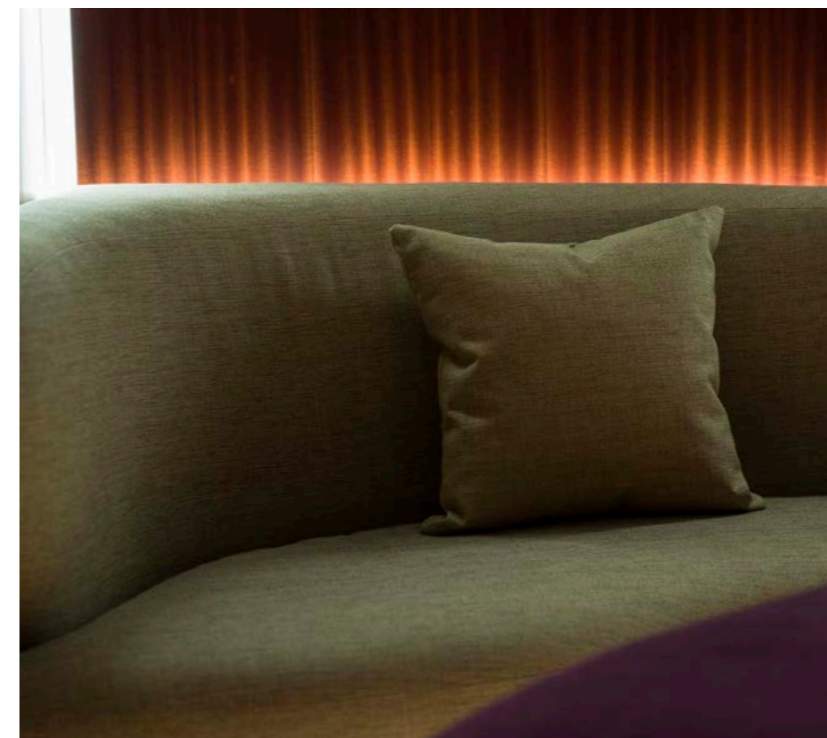

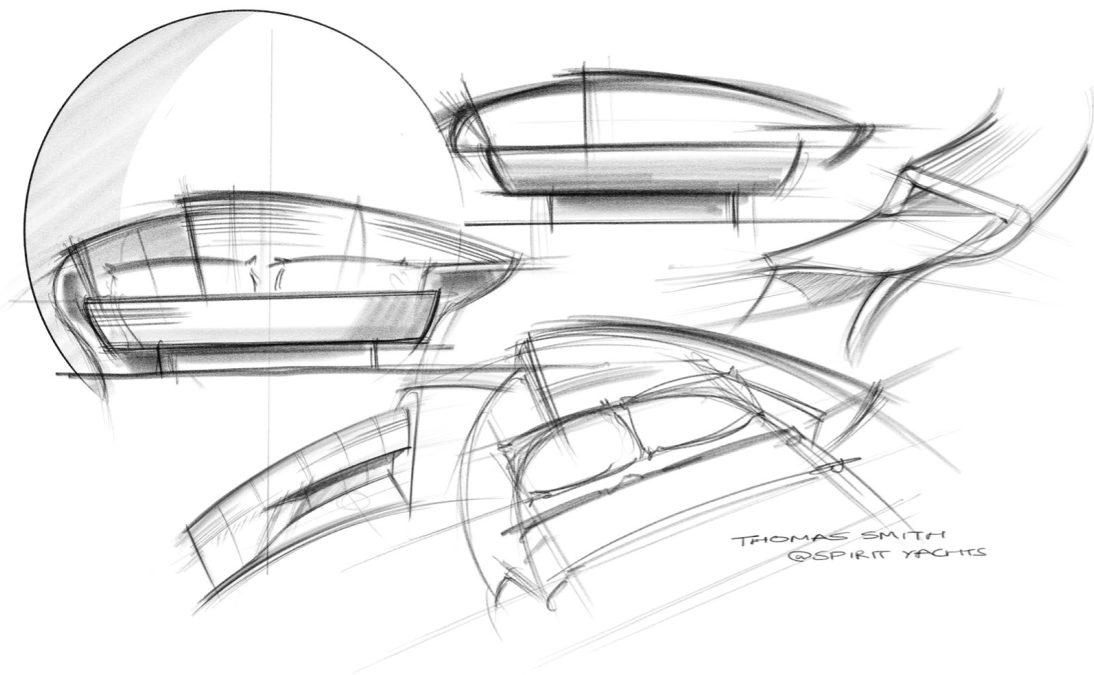

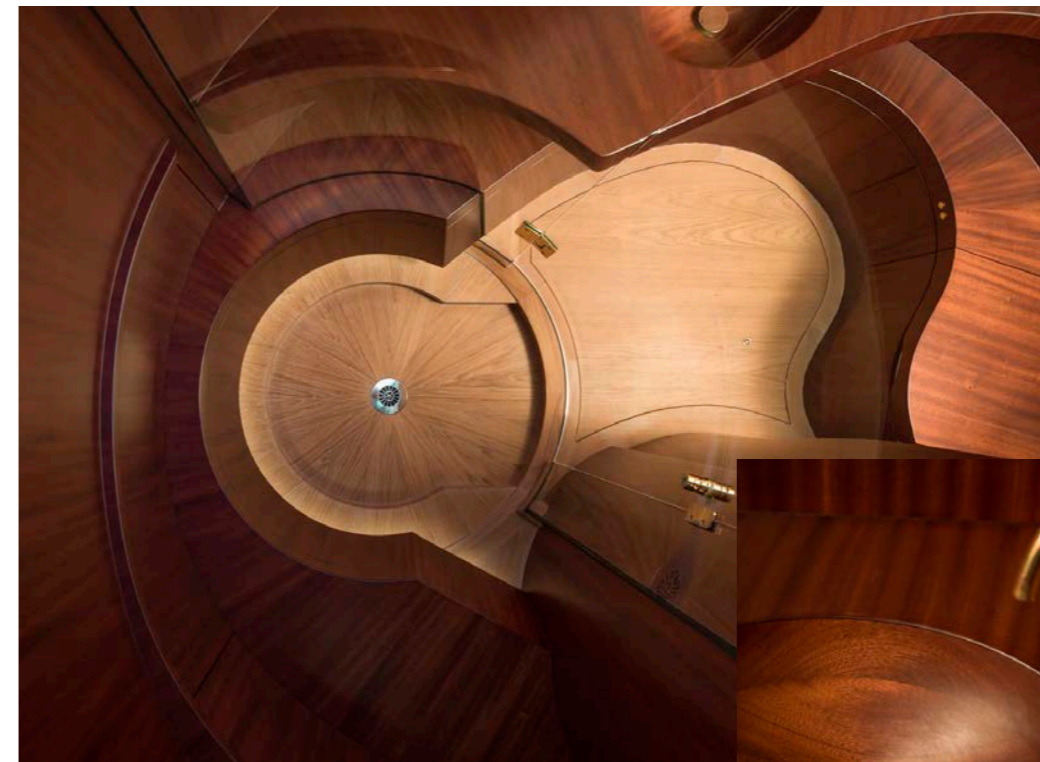

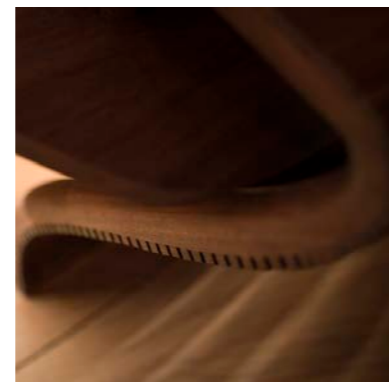

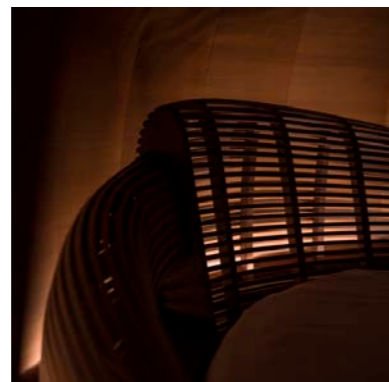

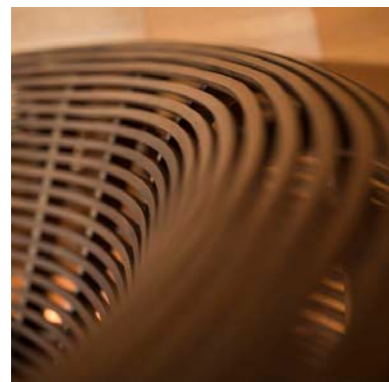

The multi-award winning Spirit 111 Geist is one of the most unique superyachts on the water today. Every element of the yacht's design was considered for its aesthetic elements, alongside the environmental impact. With an electric drive, power regeneration, sustainable materials and highly efficient services on board, Geist is a harmony of beauty and sustainability.

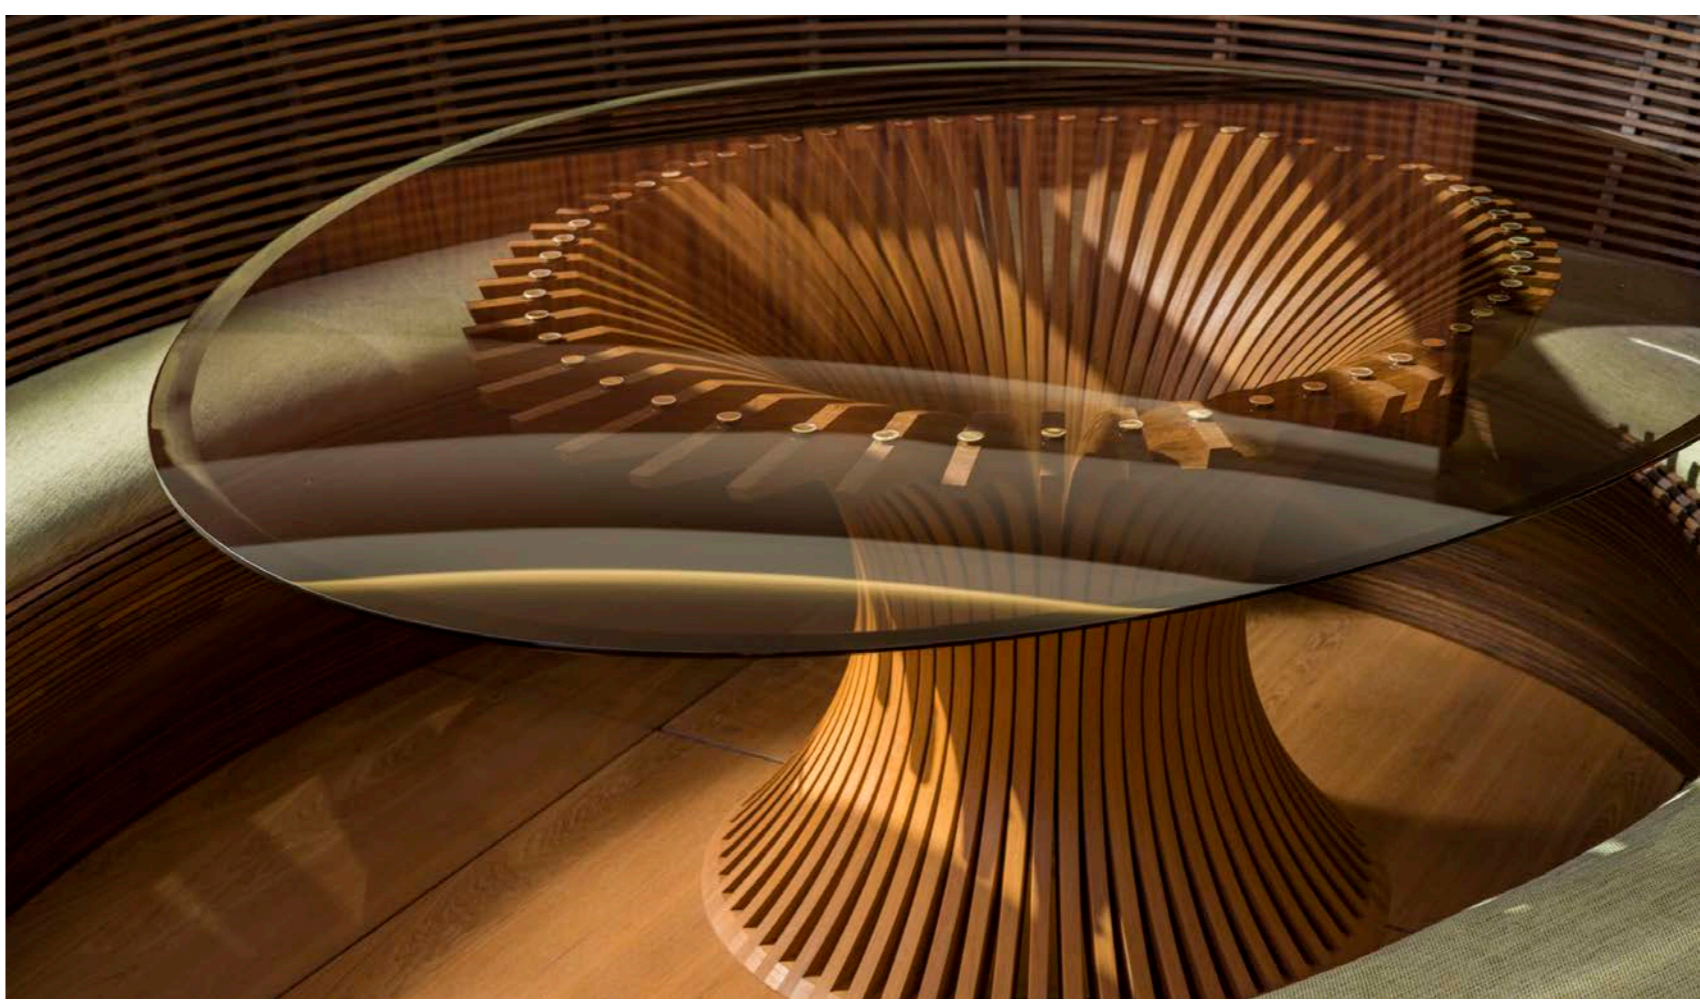

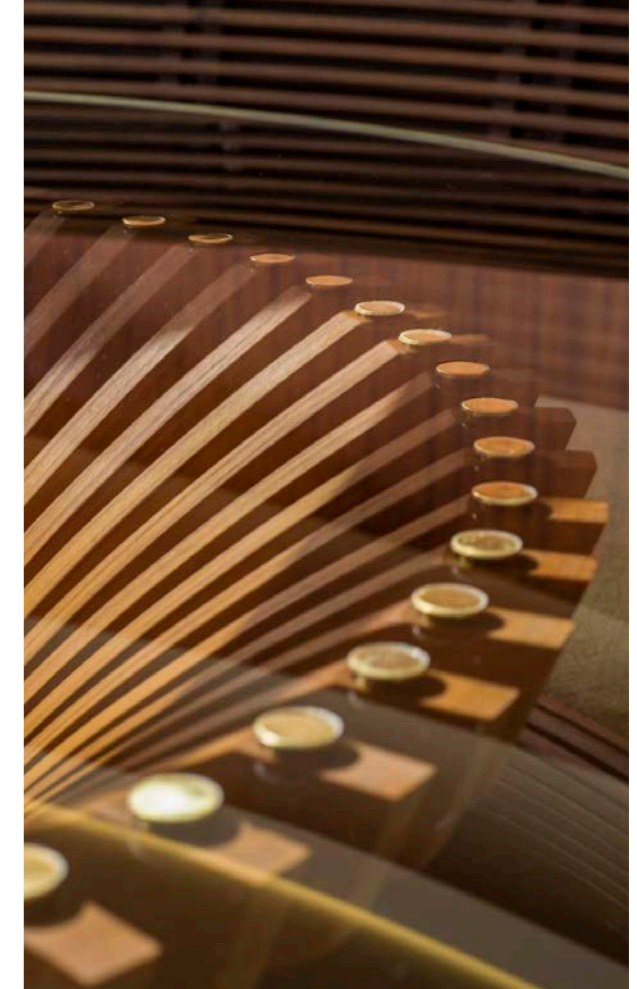

The interior was a collaboration between Rhoades Young Design and Spirit Design, working very closely with the owner. Inspired by the natural rock formations found in Antelope Canyon in Arizona, the yacht has no straight lines or harsh edges. The process considered every aspect, with each element discussed with the owner with an evolutionary design process.

"I owned a Spirit 52 for ten years and during this time I grew to implicitly trust and respect the team at Spirit Yachts. I knew they would listen to my ideas and I was confident they had the skills to execute the project. The result is Geist: a very special yacht, a dream come true."

- Owner of Spirit 111 Geist

## ANIMA II

SPIRIT 72DH (DECKHOUSE)  
Handcrafted in 2022

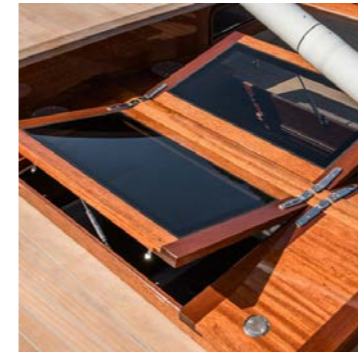

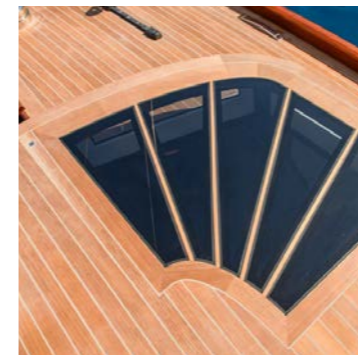

*John Heston*

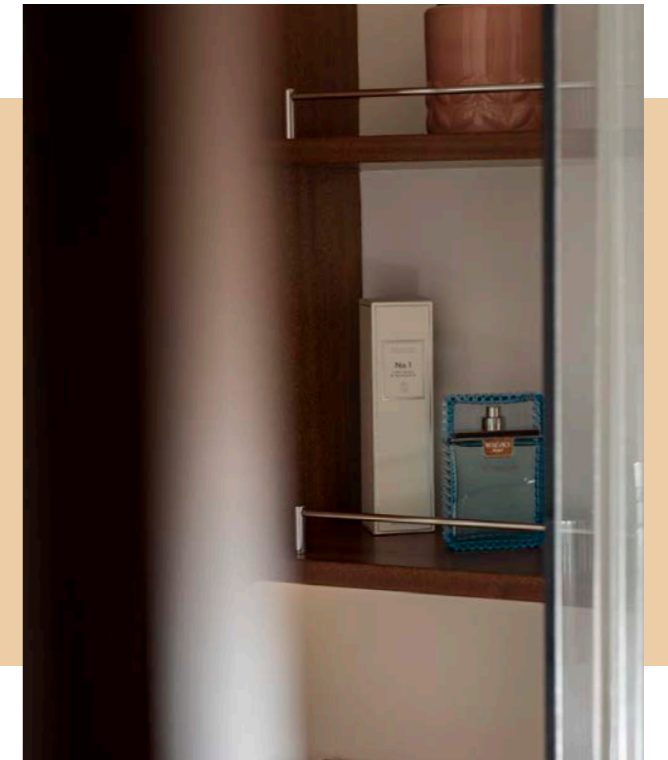

SPiRiT 72  
GENERAL ARRANGEMENT PLAN

Anima II is a 22m sloop sailing yacht launched in 2021. In her first season, her owners cruised over 3,000nm in the Mediterranean. Her deck layout is simple for short-handed and family sailing with a spacious cockpit for al fresco dining.

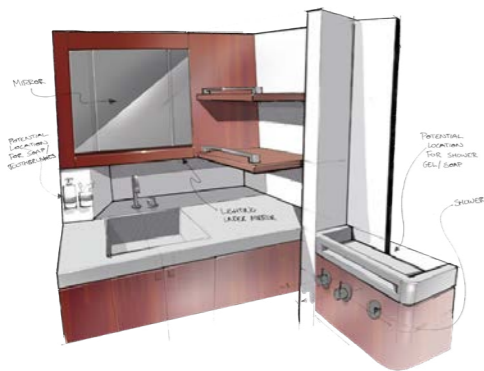

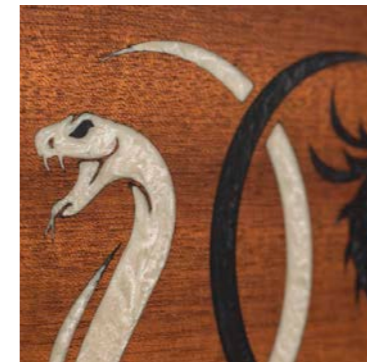

**RENDER TO REALITY**

Hand drawn sketches, colour sketch renders, 3D computer renders. Every step of the way, our design team can guide the client through the build process with beautiful visuals to create a realistic representation of the final product. An exciting step for any client within the build experience.

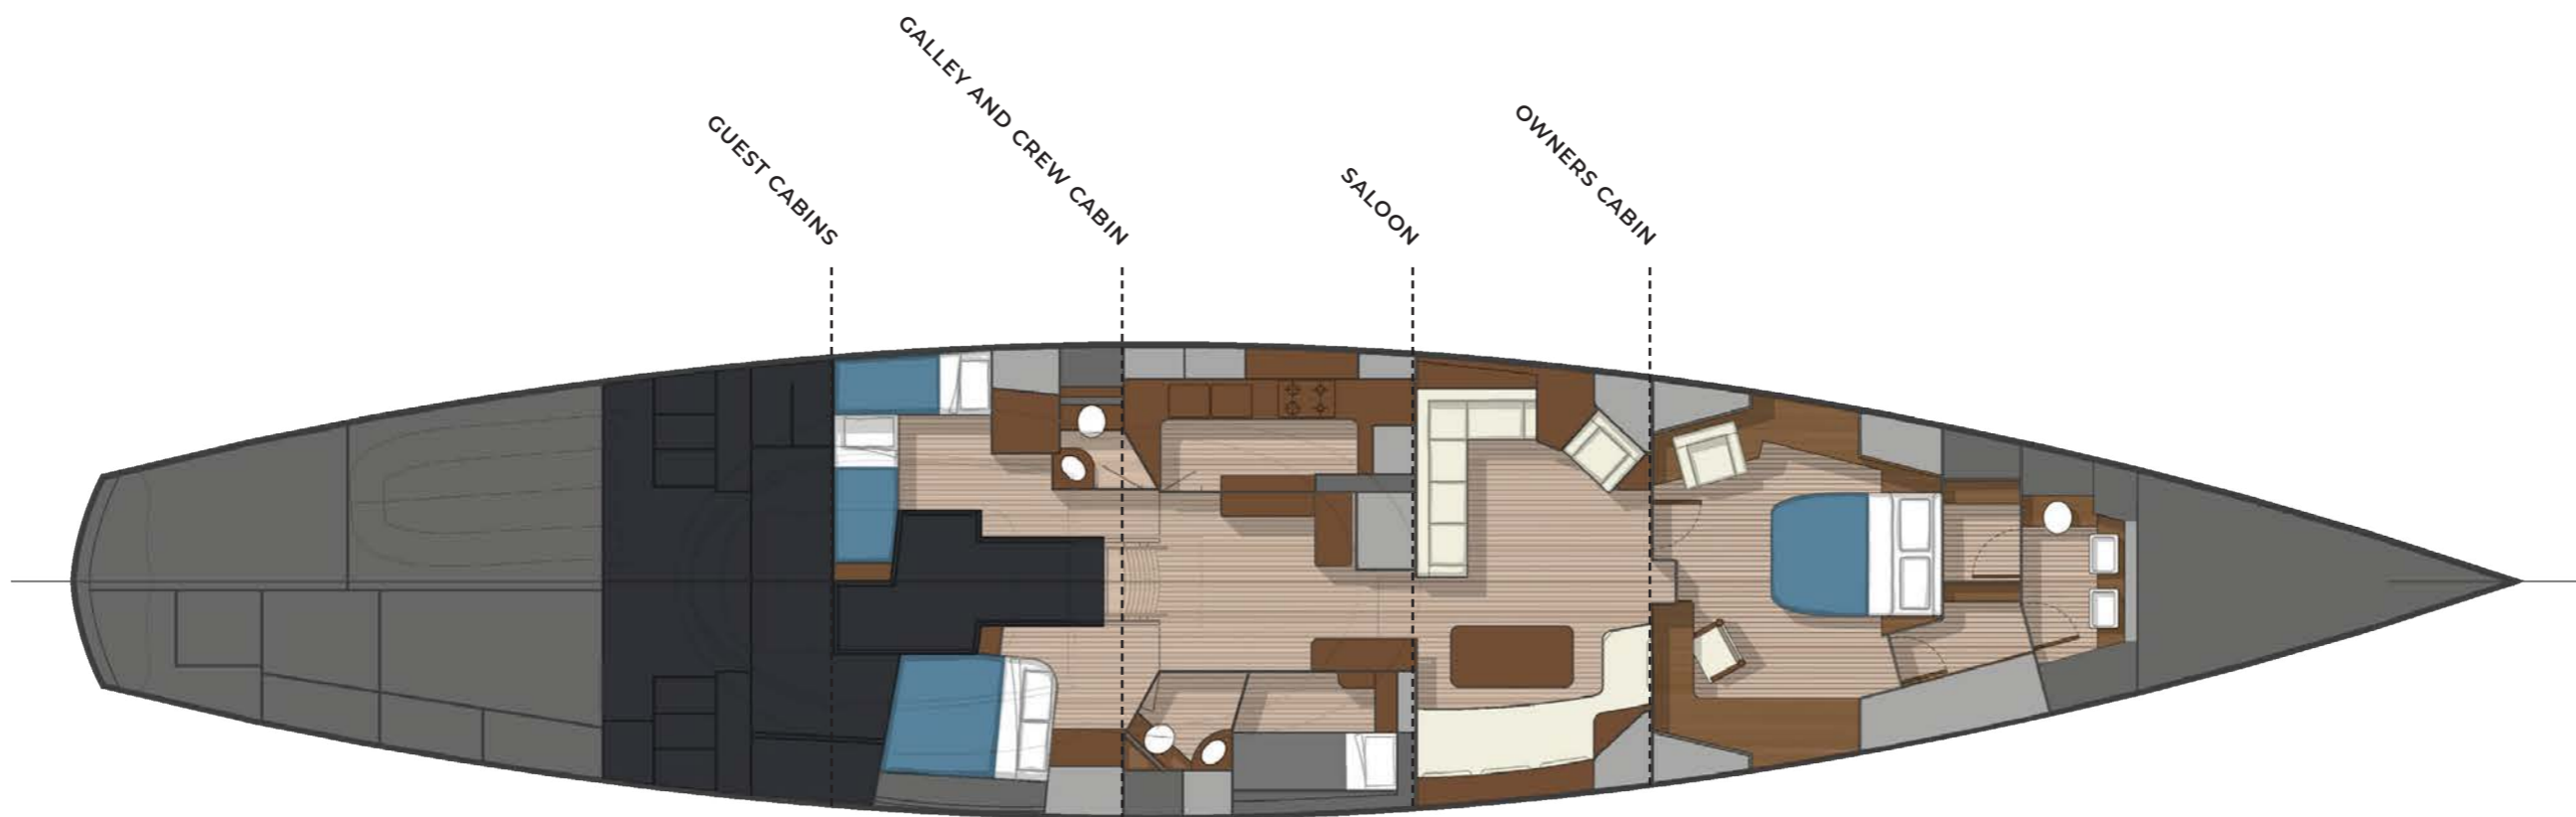

Down below Anima ii is light, contemporary and spacious. Beautiful details, rich textures and lighting that excites the surfaces, the interior embraces the details of a traditional Spirit whilst creating an ambience that is modern and comfortable.

# GAIA

SPIRIT 100  
Hand crafted in 2007

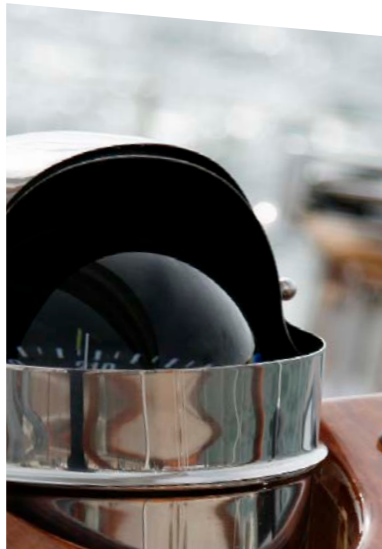

**BOAT International World Superyacht Awards 2008**  
Sailing Yacht of the Year FINALIST

SPIRIT 100  
GENERAL ARRANGEMENT PLAN

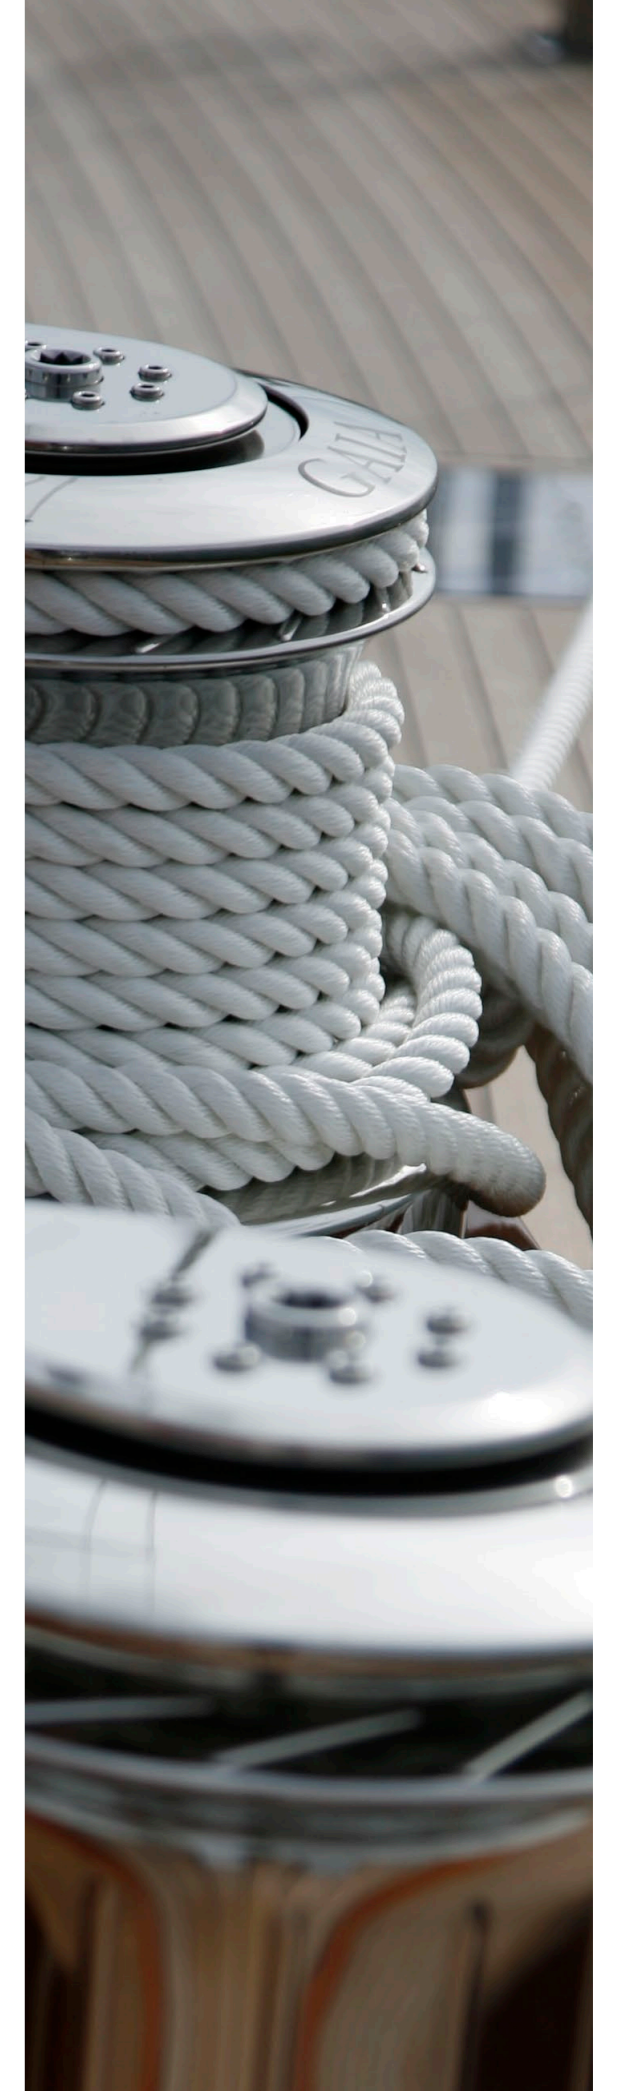

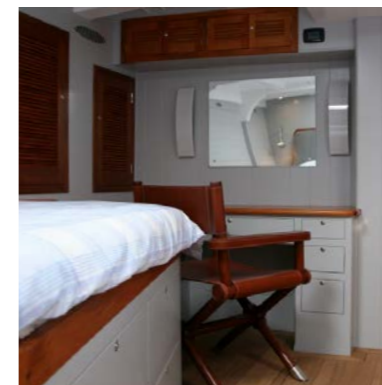

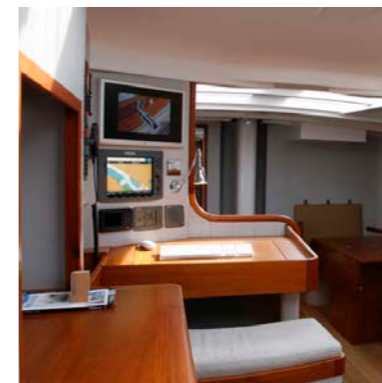

Gaia is a 30m superyacht built in 2007 with a displacement of 48 tonnes. Designed and built for competitive racing and family cruising in the mediterranean.

"Gaia's flush decks, smooth lines, low freeboard and the curved overhang of her transom make her a truly beautiful yacht. When we come in to a marina we have queues of people waiting on the dock just to catch a glimpse of her."

- Skipper of Spirit 100 Gaia

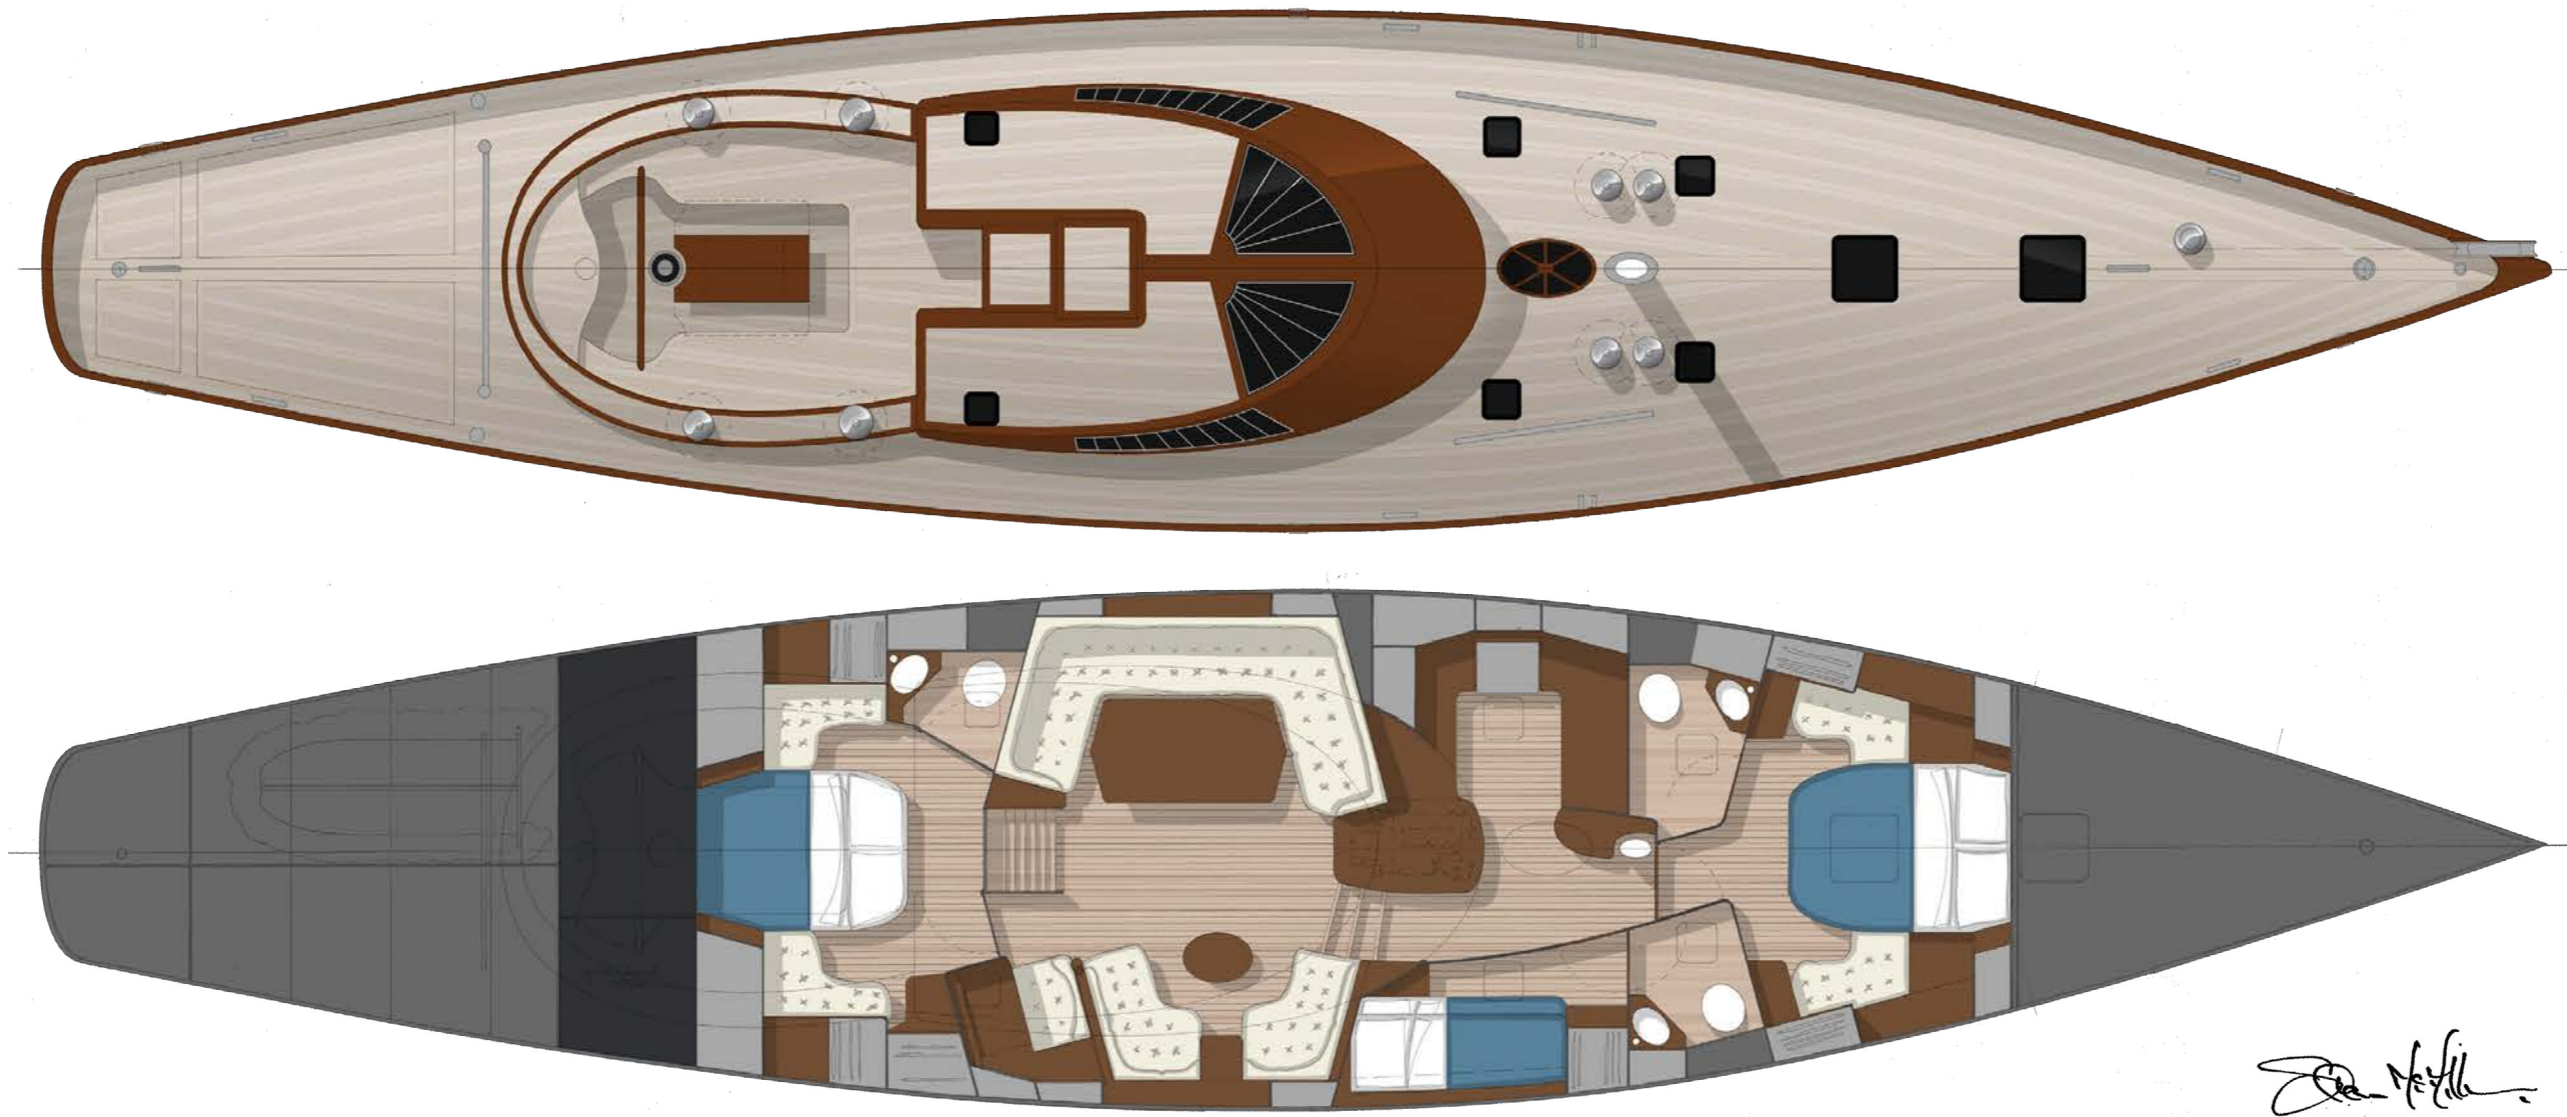

## GALATEA

---

SPIRIT 74  
Hand crafted in 2015

*Handwritten signature*

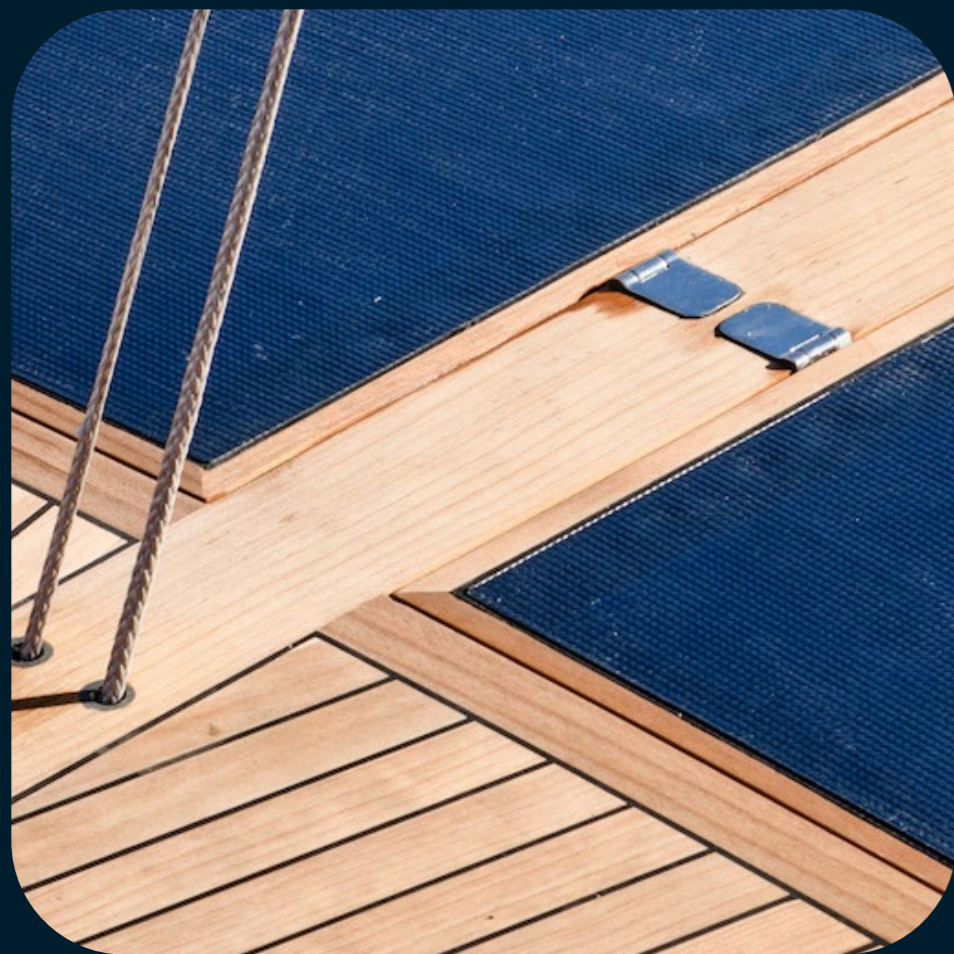

SPIRIT 74  
GENERAL ARRANGEMENT PLAN

Galatea is a 22m sloop rigged yacht with a displacement of 22 tonnes. Built in 2015, the brief was simple, to build the most beautiful yacht possible with no compromise on quality and performance. Elegant lines and an impressive power to weight ratio make the Spirit 74 a timeless classic.

Down below, Galatea is spacious and relaxing. The fanlights are a statement of design, drawing your eye to the centre of the room, whilst they bathe the saloon in natural light.

## SUSTAINABILITY

Sustainability is a key element of Spirit Yachts' DNA. The founders of Spirit Yachts believed in responsibly sourcing timber from the moment the company began.

This respect for the environment has evolved and today Spirit is renowned for its commitment to lowering the carbon footprint of its yachts during construction, operation and at eventual end of life.

**BOAT International Design and Innovation Awards Eco Award 2021**

Spirit 111 (GEIST) WINNER

**Southampton Boat Show Environmental Award 2019**

WINNER

**METSTrade Boatbuilder Awards Environmental Initiative Award 2019**

WINNER

## CONCEPTS

---

For the end of 2022, we have created three new conceptual designs inspired by the very place we live and work in. Each design shows a general arrangement and a taste of interior style.

From Suffolk with love...

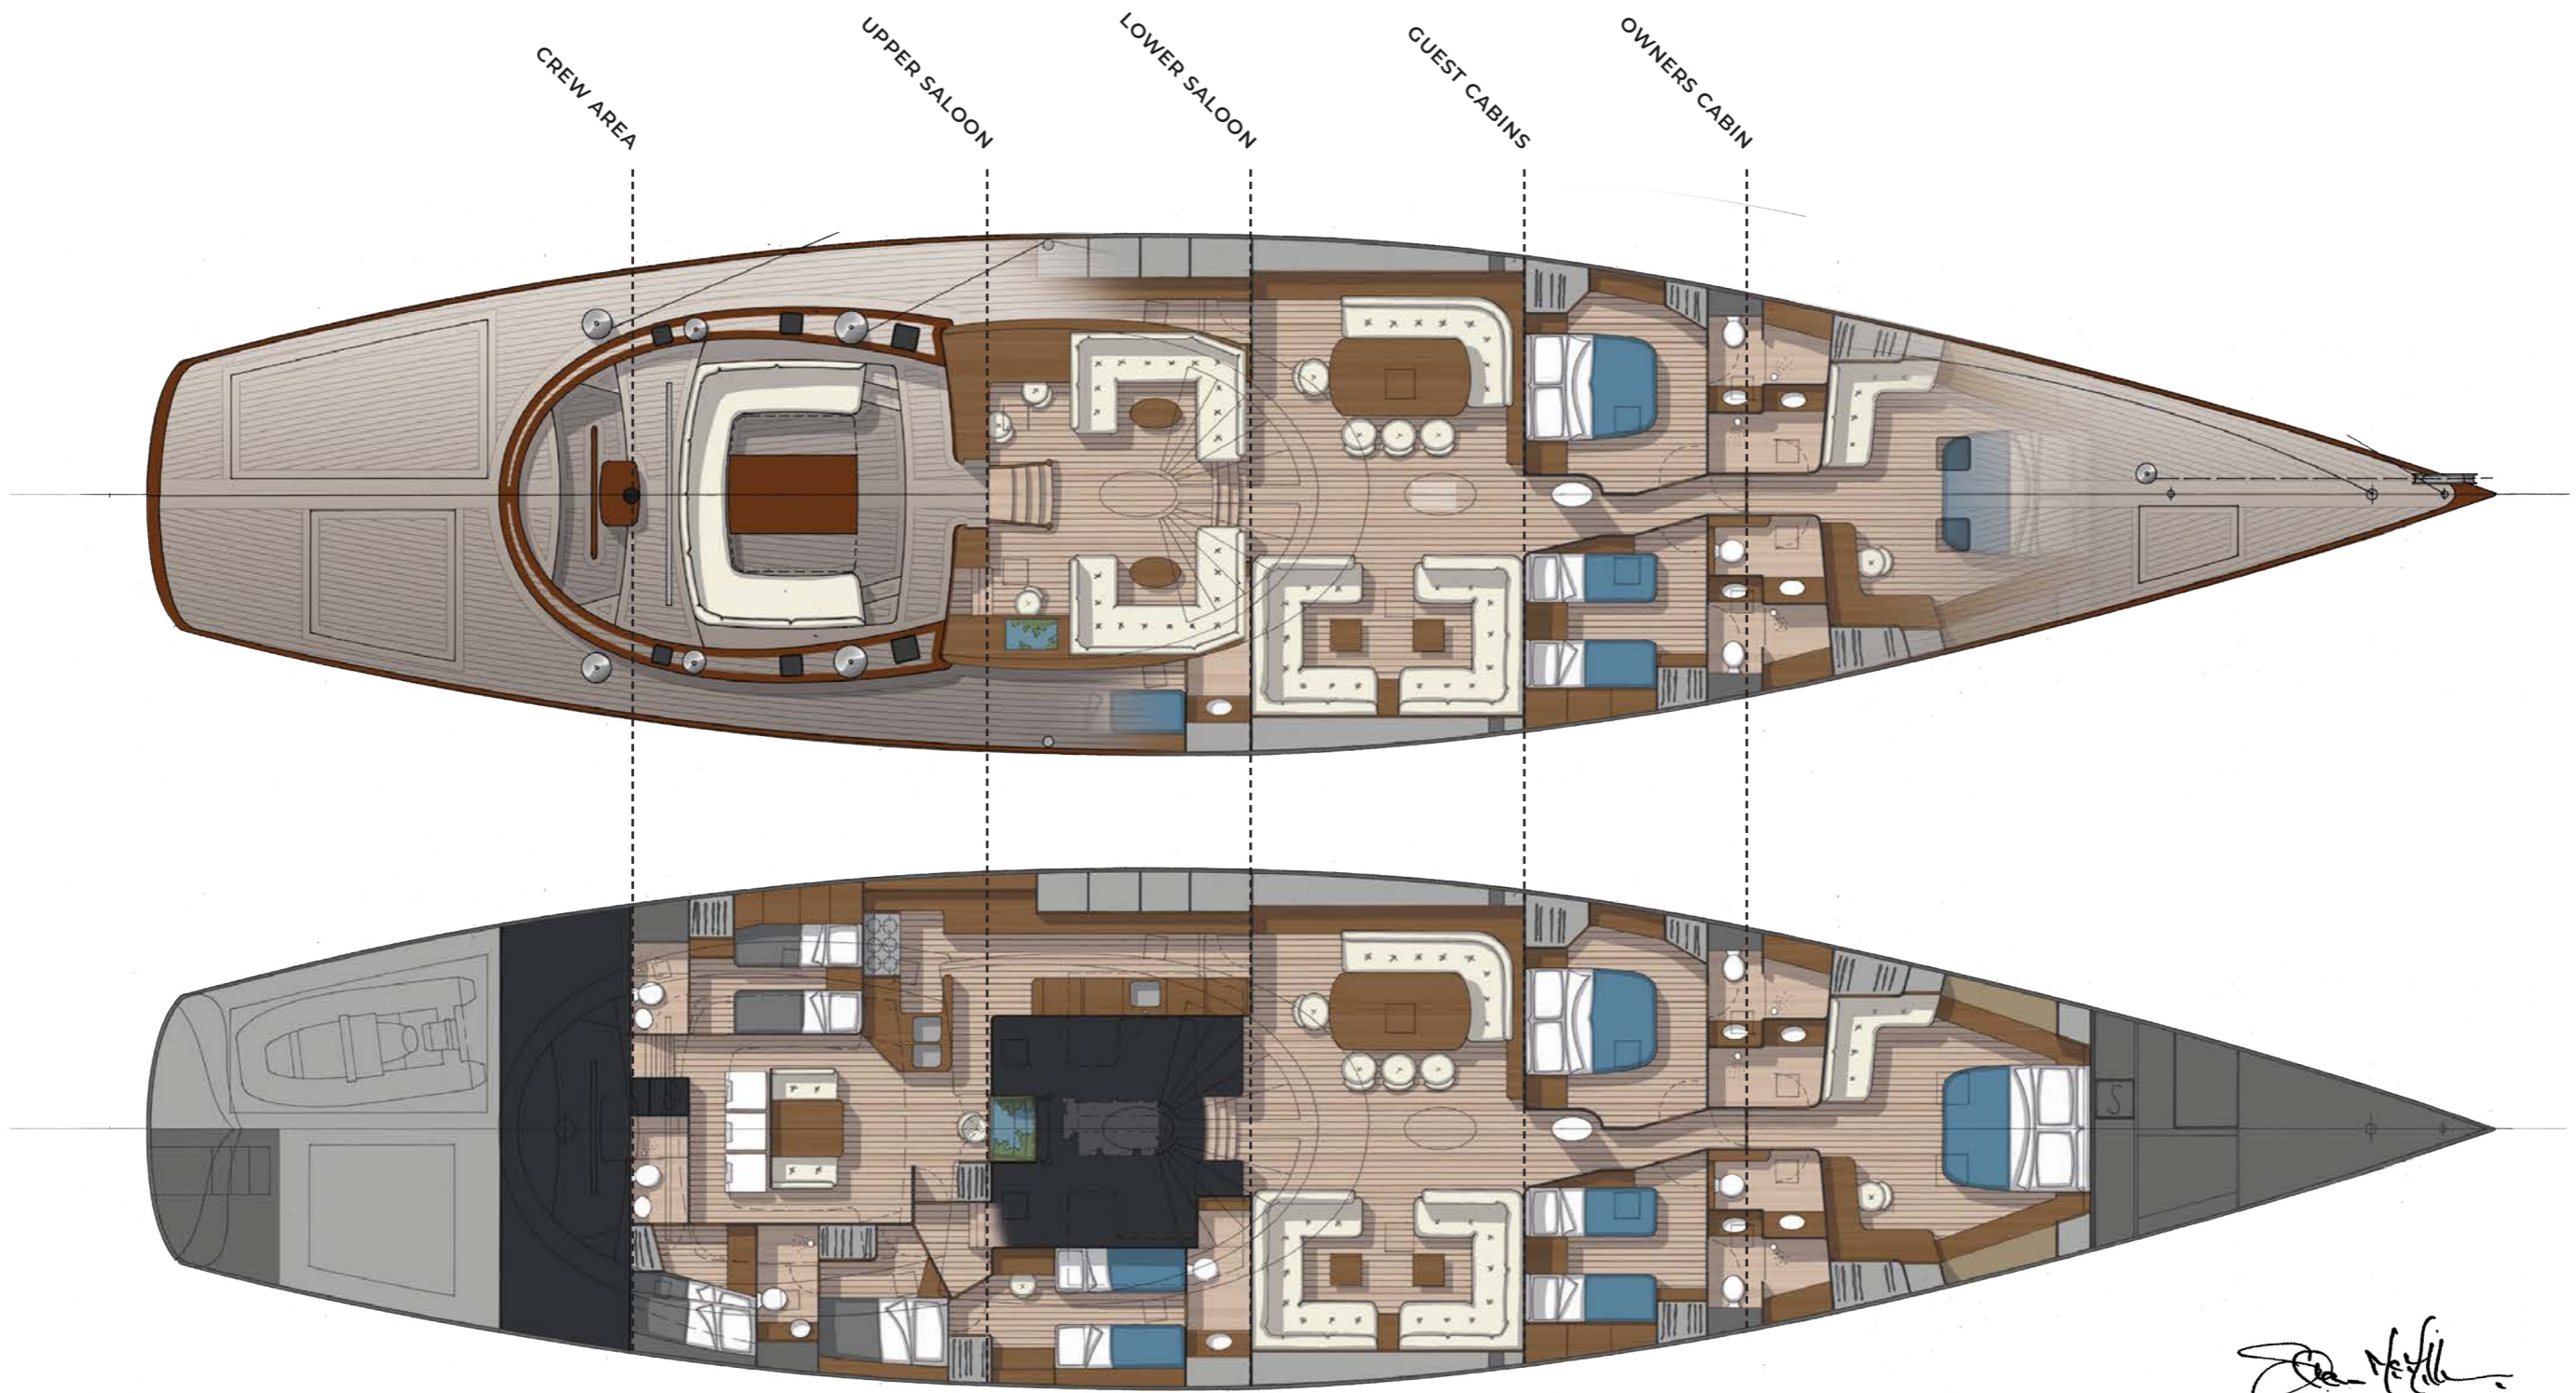

# CHRISTCHURCH

## CLASSIC AND OPULENT - SPIRIT 125

Within the heart of Ipswich, Suffolk sits Christchurch Park and Mansion, which inspired a design of opulence and grandeur. Built in the 16th Century, the mansion has an interior built with history, from the Tudor kitchen and Georgian Saloon with an entire wing detailed from the Victorian era.

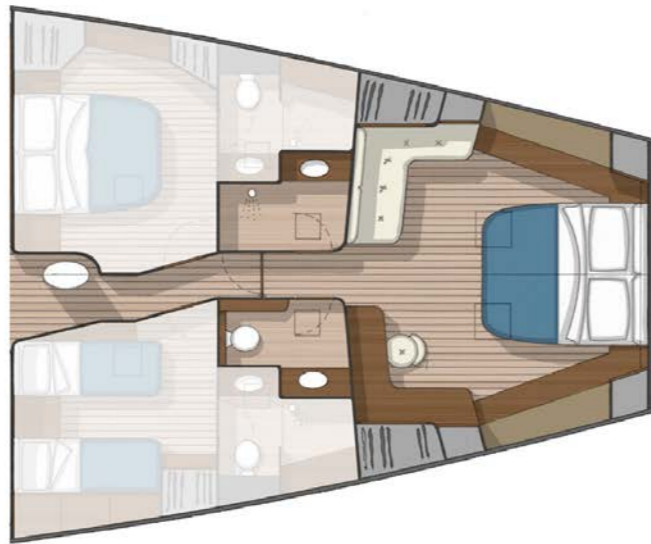

The Christchurch interior uses beautifully detailed fixtures, with mahogany joinery complimenting the yachts internal structure, creating a comforting ambience.

**DESIGNED WITH CLIENTS**

Central to every project is the client, and every yacht is built around their individual needs and desires. Whether it's having an opulent owner's cabin with a dressing room, or having an owner's heads with double sinks and a voluminous shower. Every aspect of the yacht is influenced by the owner, to make their dream a reality.

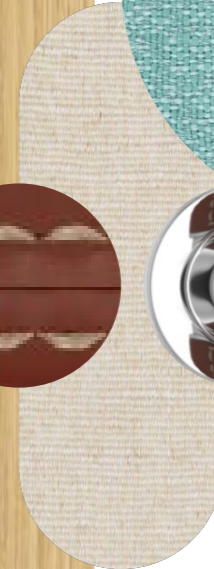

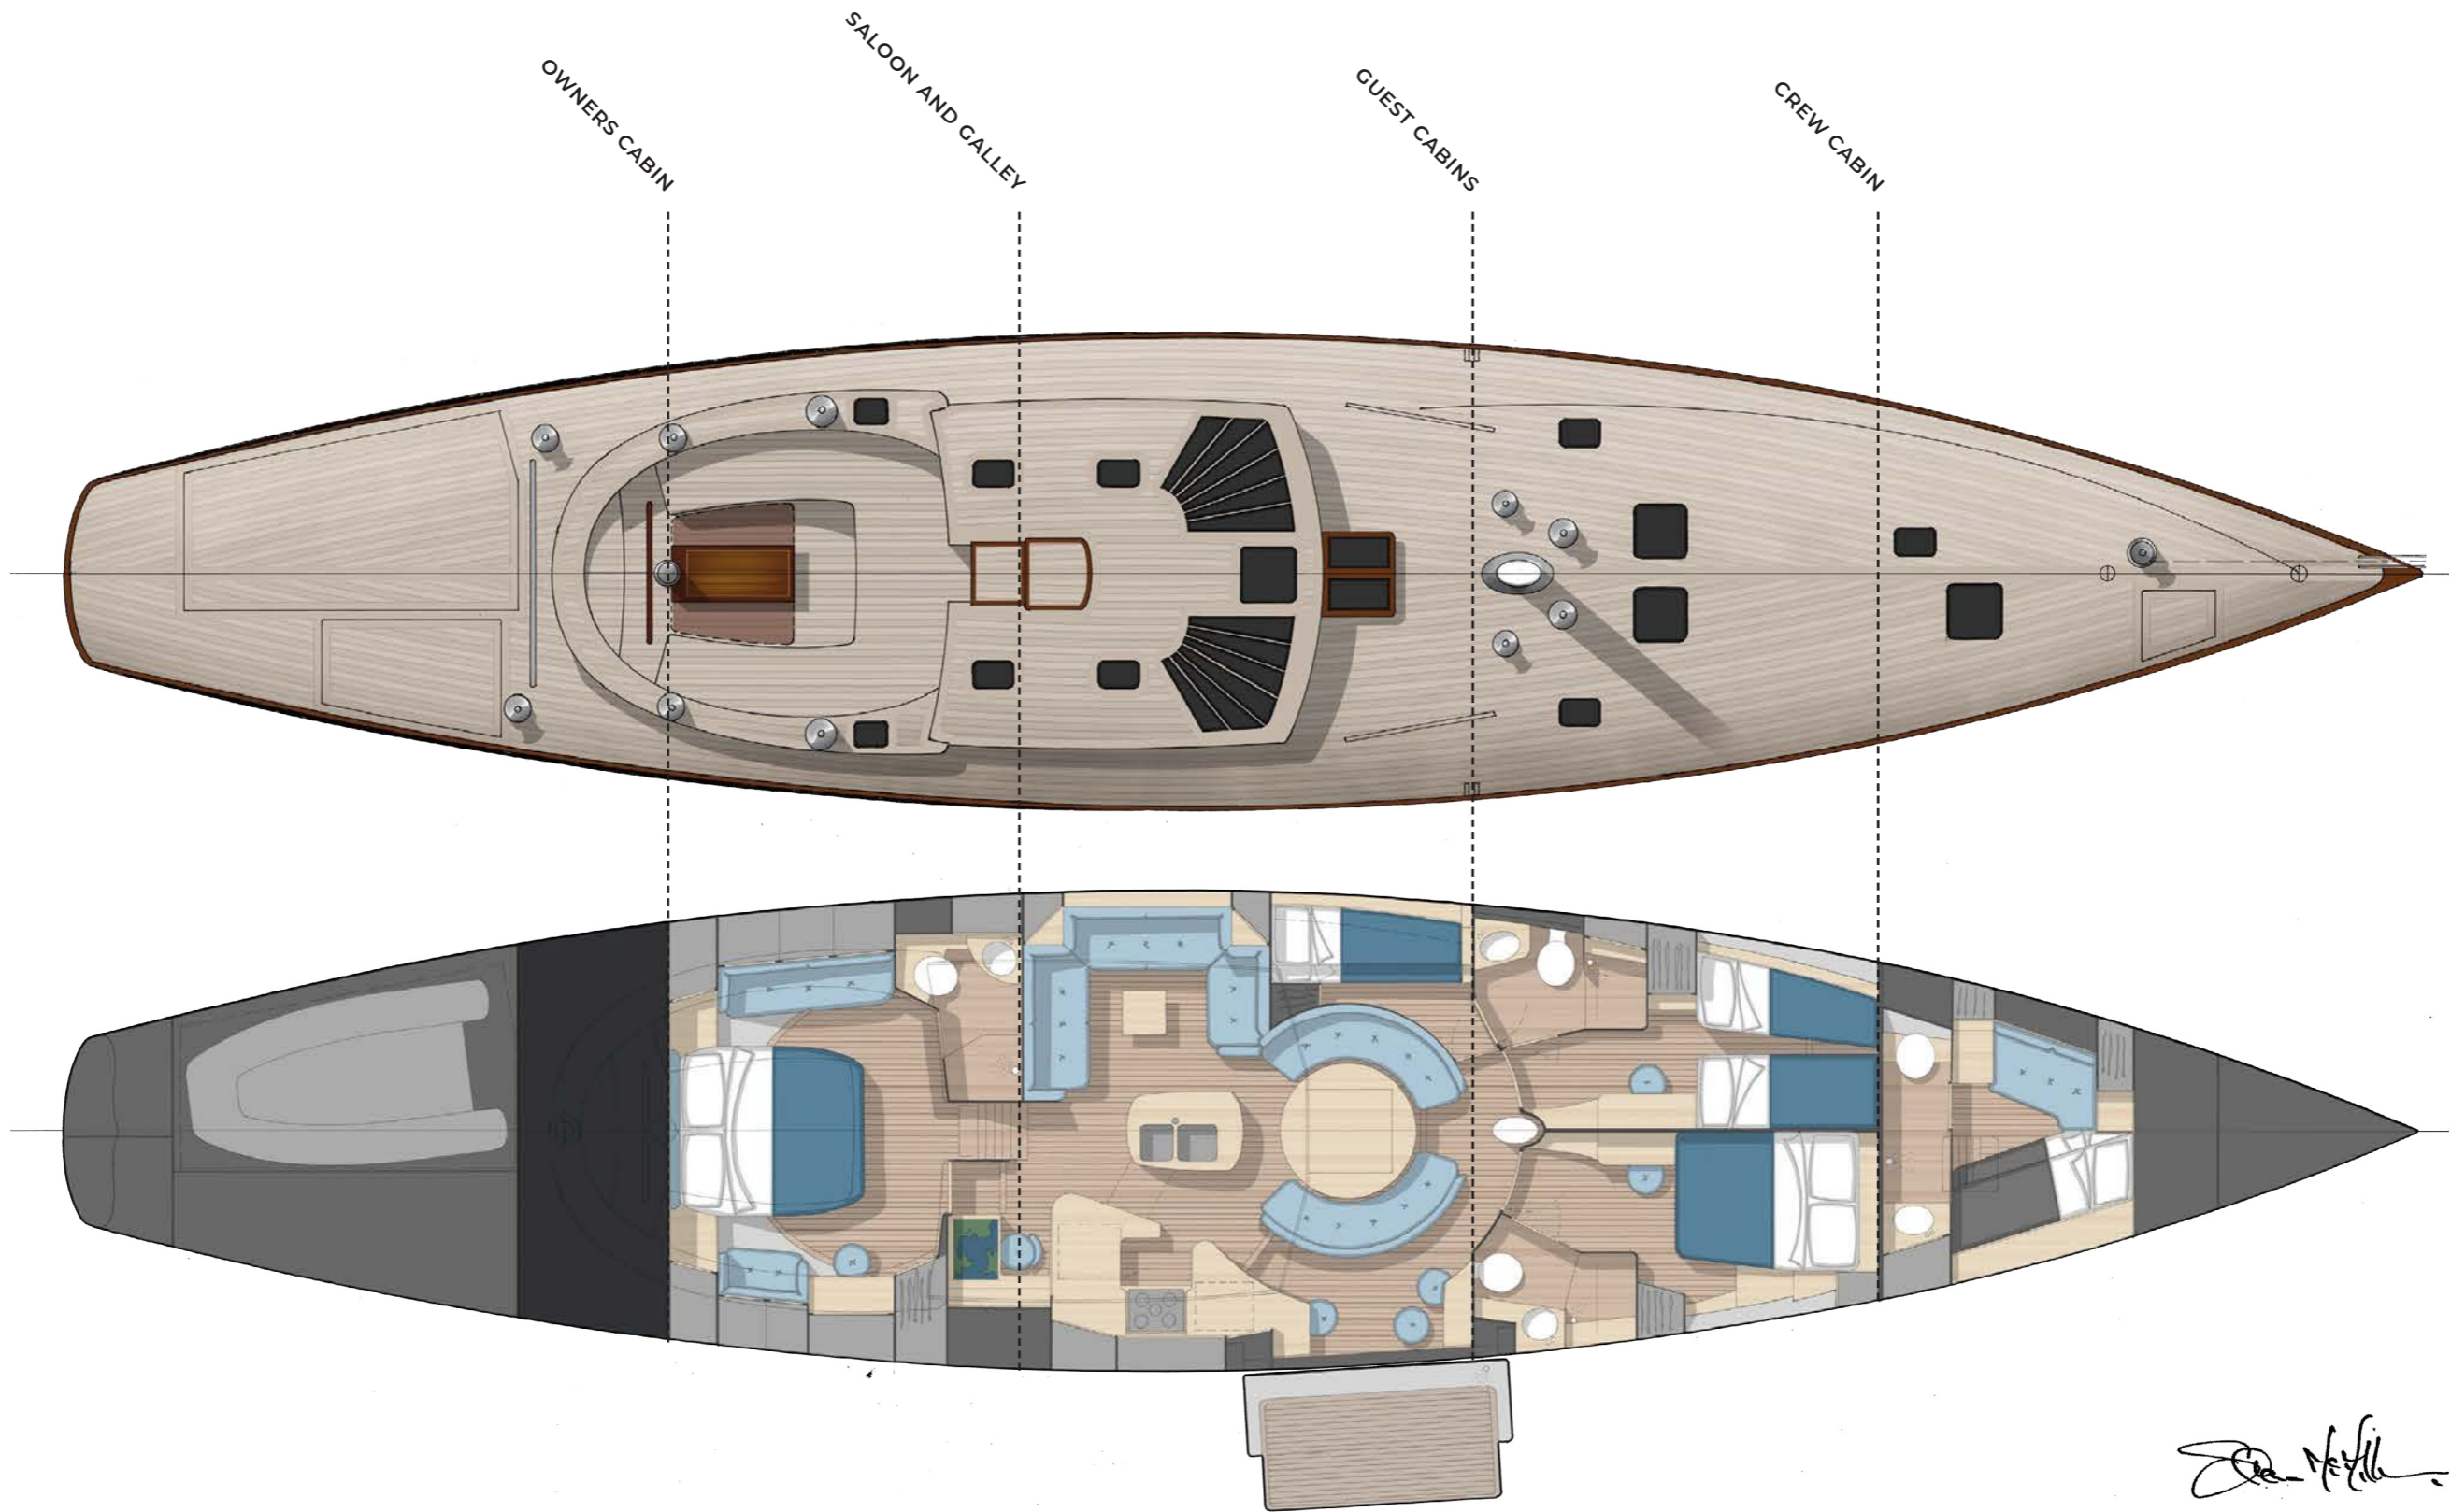

## ALDEBURGH

### BEACH HOUSE - SPIRIT 84

Light, contemporary and injected with colour, the beach house style is inspired by one of the many beautiful coastal towns of Suffolk.

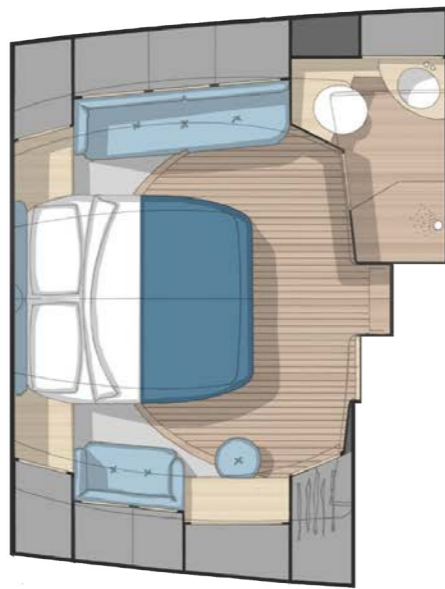

The subtle tones of the American white oak interior finish are combined with rich leather detailing, and soft upholstered accents and furniture to create an interior that is aesthetically elegant and a home away from home.

## ICKWORTH

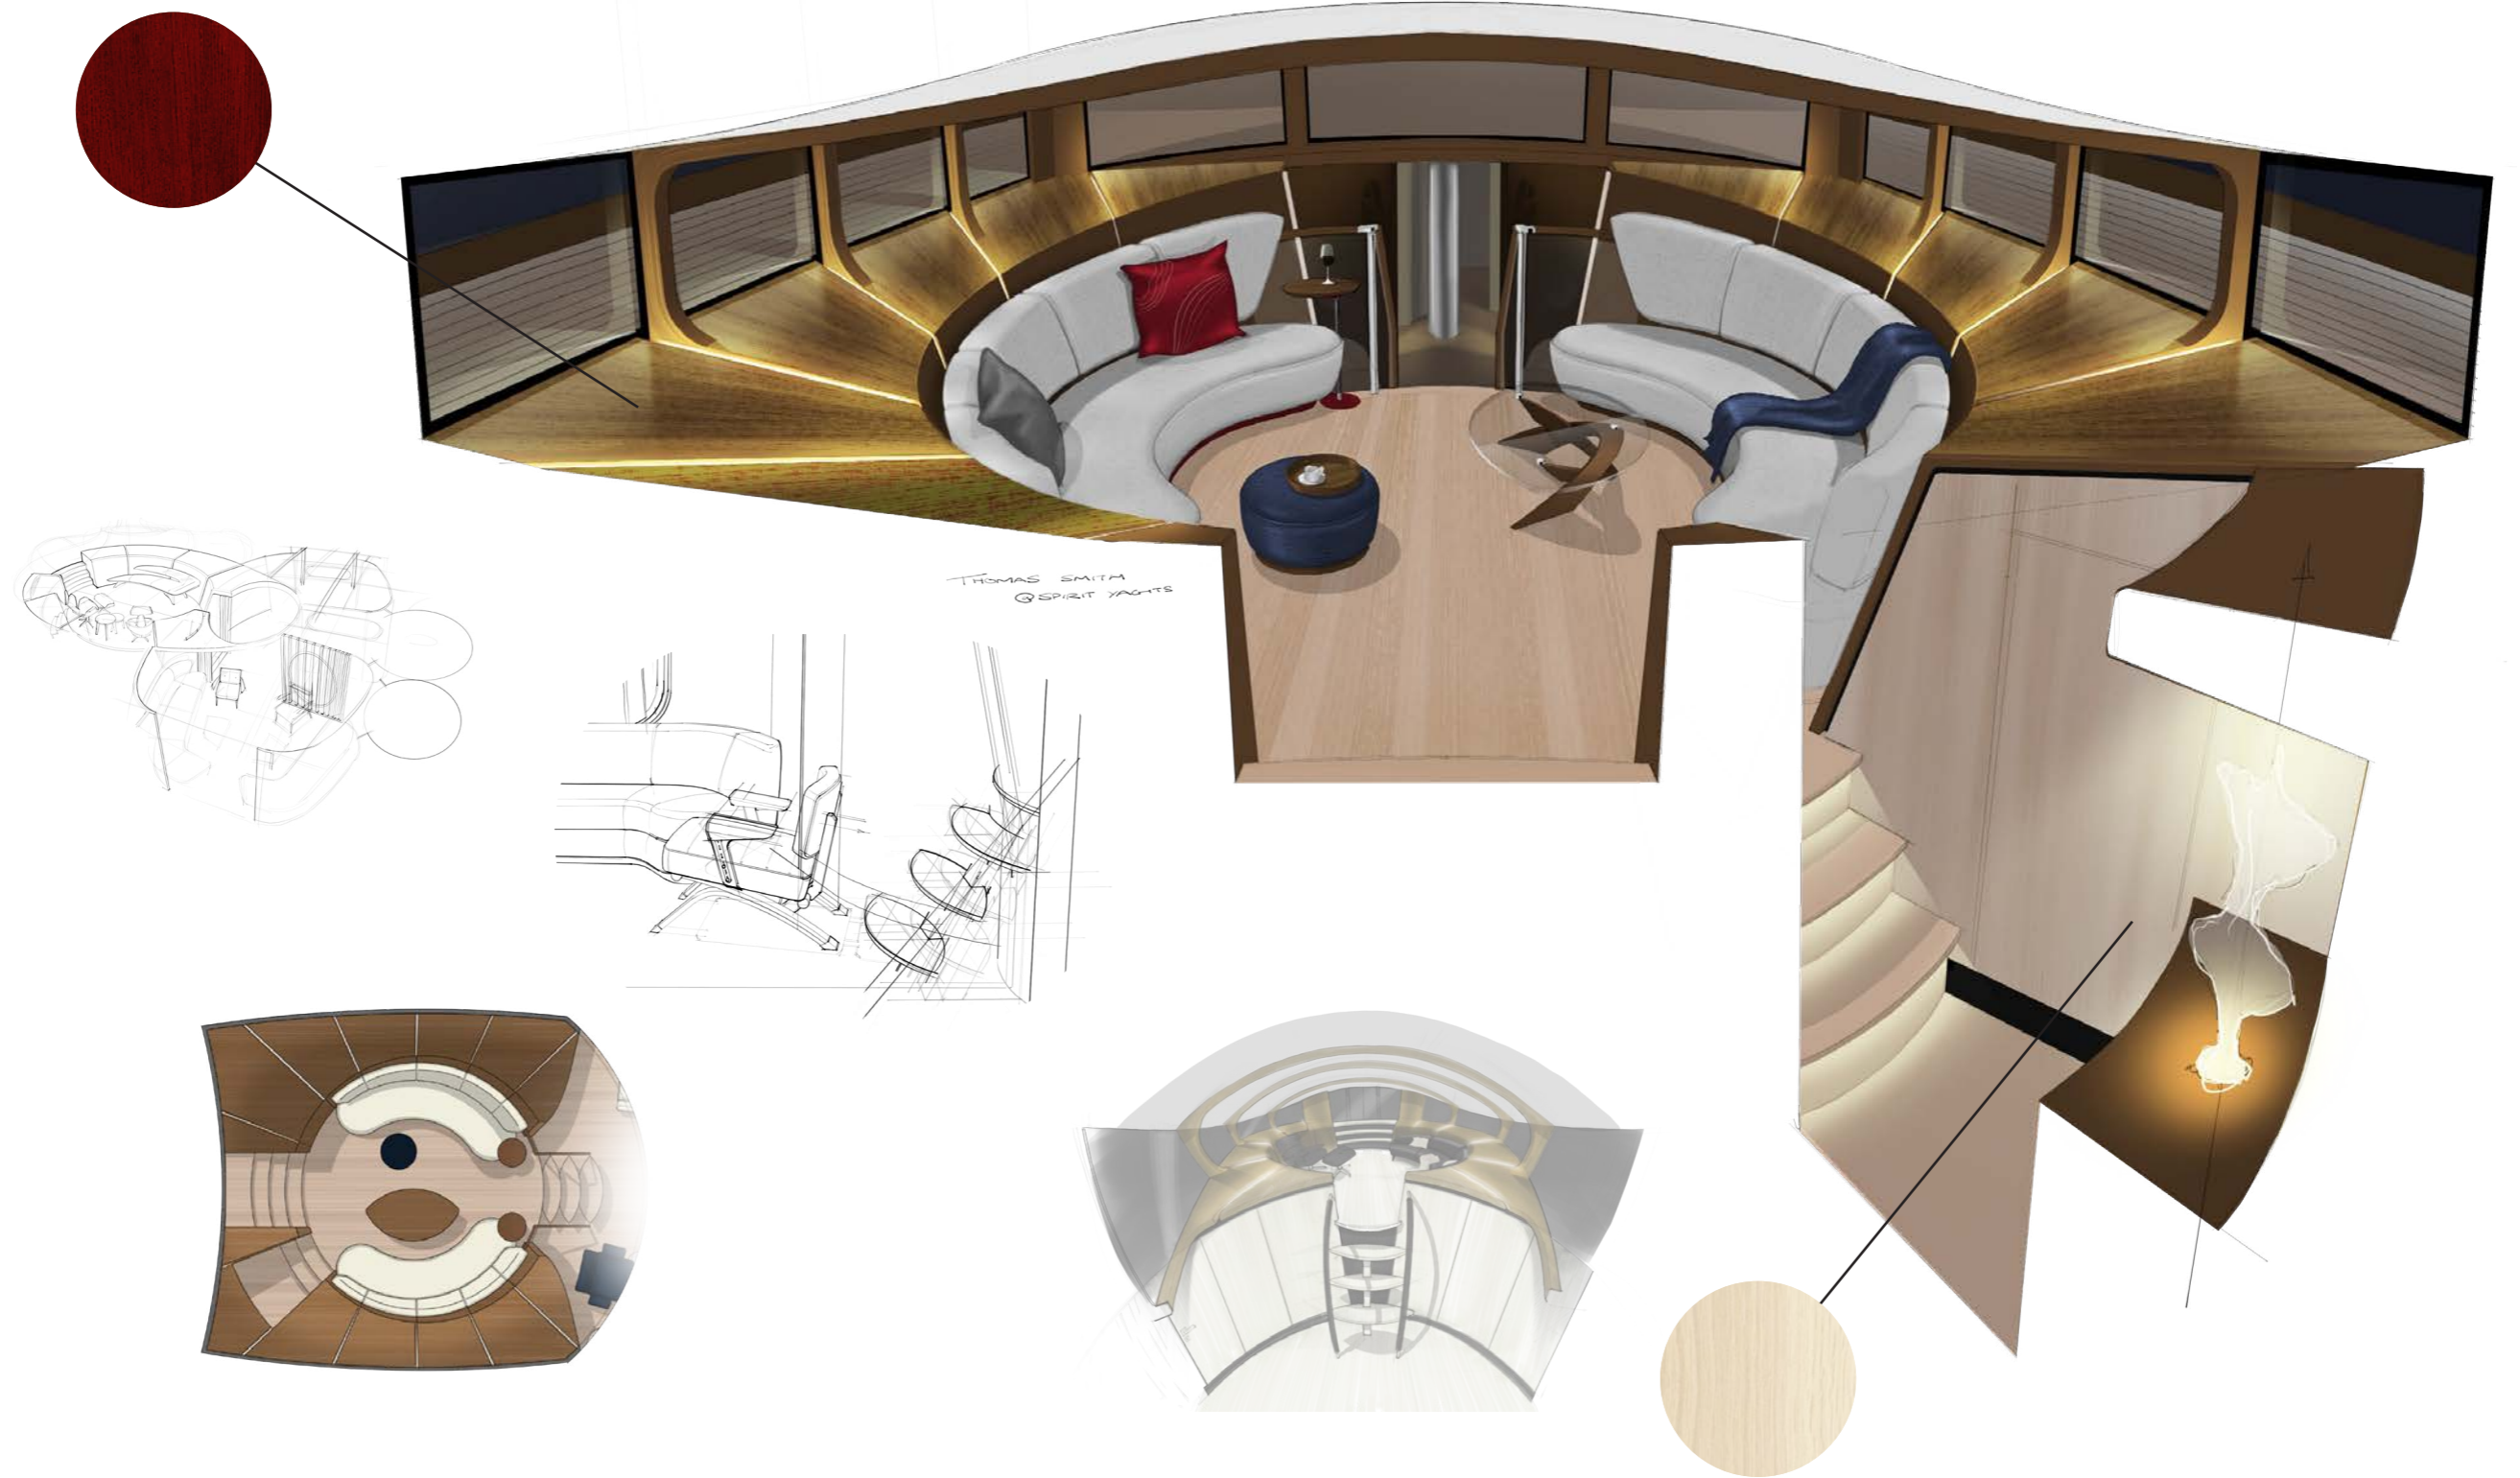

### CONCEPTUAL - SPIRIT 120

Ickworth, a beautiful stately home on the outskirts of the market town Bury St Edmunds, became the inspiration for a conceptual interior. Vision of 4th Earl of Bristol who aspired to build a house that would "unite magnificence with convenience" this magnificent house uses strong geometry and a focus on defining circular shapes. Following this form, the upper saloon creates a theatrical entrance as you enter the interior, a comforting inviting space.
