GUERNSEY  
NOTICE 3  
COURSE FOR ROUND GUERNSEY RACE

**SI 9.4 COURSE FOR ROUND GUERNSEY RACE**

**Delete** the printed 'rock list' of 32 rocks to be left to port in Round Guernsey race, issued via WhatsApp at 17:05 on Thursday 20 June.

**Replace** with .gpx file of 15 waypoints (excluding start and finish line) to be left to port in Round Guernsey race, issued via WhatsApp at 22:36 on Thursday 20 June.

Explanation

*The narrative 'rock list' created too many questions about:*

- 1. Which exact location was being referred to, with multiple rock heads charted within a particular named cluster of rocks.*
- 2. Which chart showed the named rocks, as no specific chart reference had been specified in the Notice of Race.*

*By issuing a .gpx file capable of being imported into Navionics and with lat/long data visible in the file, the opportunity for misinterpretation has been reduced.*
